

# BREMEN CREW ASSERTS OCEAN FLYING DISTANT

## Great Field of Experiment in Aviation Remains to Be Explored, They Say

By CHARLES J. V. MURPHY  
(Only reporter to fly to Greenland with relief plane which carried Bremen's crew to civilization.)

NEW YORK, May 13. (Exclusive)—Six times, now, heavier-than-air planes have crossed the North Atlantic nonstop. One has made the more hazardous east-to-west passage, to contradict what was becoming, in the minds of laymen, at least, a conviction that the Lindbergh route was a one-way street.

What, then, does the future hold? This experience, observations which invariably met with approval. Here, then, was what these four men agreed.

Any attempted non-stop flight in a single-motored land plane must remain in the category of a spectacular flight.

The power-plant limitations of modern aircraft are clearly defined, and if a commercial practical, useful or pay load is to be carried, the non-stop attempt is out of the question.

Besides this, the strain on the passenger is such, or would be such, that only the most adventurous, inclined, as distinct from the great bulk of flyers from whom any form of transportation must recruit its passengers, would hazard it.

There is yet a vast and uncharted field of experiment to be covered, not only in the construction of planes, but in the perfection of motors and instruments as well, before the heavier-than-air vessel can expect to guarantee a trans-Atlantic crossing with the assurance of safety and convenience any form of transportation must give its passengers.

SHIP NEAR PERFECT

These are honest, candid opinions. As proof, the men talking cited the experiences of the Bremen, as fine a ship as any from the point of view of mechanical development.

Months had gone into preparing the Junkers monoplane for its mission. Every conceivable instrument necessary for accepted or assumed situations had been provided. Koehl, chief pilot, had studied his problem well, and yet he had not been able to devise which could have saved him from the crash on Greenland, or led him out of the pounding snow which drove the Bremen up and into the lonely interior of Labrador, where the falling of the motor, even the closing of a fuel line would have meant a crash and probably death.

COMFORT PUT LAST

Surveyed from the passenger's seat of Baron von Huenefeld, it was not a comfortable passage. It was not a flight to be recommended to the passenger who demands the comfort and the comparative reliability of the 5:18 express.

Koehl and Fitzmaurice sat buried in the control cabin forward past the wing, their feet out almost straight ahead. Before them was one of the most elaborate instruments boards used on a trans-Atlantic plane.

In almost every instance comfort had been sacrificed to safety. To save weight in structure and allot more margin for fuel the most devious schemes had been used. Only enough wood had been left on the control column, usually like an automobile steering wheel, to be held in the palm. This is just an example.

"It is difficult," said Koehl, "and there is much to learn. I shall learn more."

"And a pilot," put in Fitzmaurice, "must be in absolutely tip-top condition, physically."

MILWAUKEE WELCOMES TRANS-ATLANTIC AVIATORS

MILWAUKEE, May 13. (AP)—Heralded by shrieking whistles and ringing bells, the Bremen flyers arrived at 1:30 p.m. at the Milwaukee airport from Chicago. Thousands gathered to witness their arrival.

The Junkers plane circled the field once and made an easy landing. Gov. Zimmerman, Mayor Haas

# CLOTHES MADE OF DOG'S HAIR

## Combings from Pet Poodles Can Now Be Woven Into Tasty Garments

PARIS, May 13. (Exclusive)—Mademoiselle can now have clothes made from her pet dog. The combings resulting from the regular grooming of the animal can be converted into attractive garments. One pound of combings of a dog's hair can be made into a cozy wrap or long scarf, while chow's hair, being soft and silky, can be woven into theater cloaks, coats and scarves.

\*\*\*\*\*

and the executives of many Wisconsin cities and leading business men were at the field to greet the flyers.

# RELIEF AVIATOR FORCED OUT BY ILLNESS

BOSTON, May 13. (AP)—Lieut. Richard E. Cobb of the Massachusetts National Guard hopped from the Boston airport yesterday to go to the relief of the trans-Atlantic plane Bremen at Greenland Island.

According to information here, Lieut. Cobb, 40, pilot of the Bremen air-relief flight, has been stricken with appendicitis and Brig. Gen. James E. Pechee, commander of the expedition, has asked for a new pilot.

Major H. C. Davidson, commander of the Bellingham field, arrived this afternoon with Lieut. Cobb's machine and hopes for St. John.

Flying an amphibian, Lieut. Cobb planned to go straight through to St. John, landing the relief pilot there tonight and taking off again in the morning with Lieut. Fairchild.

Major Davidson will wait over with the fast plane in which he came from Washington today to complete the return trip to the capital with Fairchild.

# PLANE ARRIVAL REPORTED BY ST. JOHN

ST. JOHN (N. B.) May 13. (AP)—A United States Army amphibian plane bearing a relief pilot to replace Lieut. Muir Fairchild in one of the two planes which arrived yesterday en route to the relief of the German plane Bremen, landed here tonight. The amphibian was piloted by Lieut. Cobb of the Massachusetts National Guard, and brought Lieut. Elwood Quisada.

# HOOVER WAGON NEARLY LOADED

(Continued from First Page)

men in the Alabama convention. The eleven delegates are in doubt, with support claimed for both Hoover and Lowden. Vermont Republicans may instruct their delegates to vote for the renomination of President Coolidge, who was born in that State.

The New Jersey Democratic primaries will be held at Trenton, N. J., May 14. This State will add twenty-eight to the Smith tally.

In the Oregon primary there is a contest between Smith and Reed, Democrat, Missouri. The name of Senator Walsh of Montana, also was entered, his withdrawal taking place after the ballots had been printed. The Smith managers are confident that the New York Governor will win in Oregon, and that the only candidate where he was pitted against both Reed and Walsh.

# DEMOCRATIC DILEMMA

Four of the States where the Democrats will hold conventions this week are expected to declare "must be in absolutely tip-top condition, physically."

MILWAUKEE, May 13. (AP)—Heralded by shrieking whistles and ringing bells, the Bremen flyers arrived at 1:30 p.m. at the Milwaukee airport from Chicago. Thousands gathered to witness their arrival.

# FOLLOWS FORMAL PROTEST

This action follows closely on the heels of the formal protest made to the League of Nations by the Nationalist government in Japan, in which it was asserted that Japan had violated China's integrity and independence.

The cablegram to President Coolidge is announced by the council today, as follows:

"Japanese troops have invaded Shantung, actually waging war against China. We desire to know the attitude of the United States government and people toward this grave situation created by Japan."

# HOOVER IN FISHING BOOTS OF ROOSEVELT

WASHINGTON, May 13. (Exclusive)—Herbert Hoover started from his home here by motor today for a five days' fishing trip to Williamsport, Pa., where former President Roosevelt used to fish from the hunting lodge of Jay Cooke. He will have as his companion Associate Justice Harlan Fiske Stone of the United States Supreme Court, former Attorney General of the United States, Justice Stone is no mean fisherman himself and in addition is a believer in the nomination and election of Herbert Hoover. He is probably one of the most influential of Secretary Hoover's friends in many parts of New England and New York.

# HARRY WALKER TRIPLE GRAMP IN FORTNIGHT

OMAHA (Neb.) May 13. (Exclusive)—Harry Walker, Harry's grandparent at the Orpheum Theater, is just getting over the effects of learning that he is a grandfather three times in two weeks. Harry Walker, Jr., familiar to many Omaha audiences for his dancing some years ago, wired his father that a daughter was born in Columbus, O. That made him grandfather once. The other two came when his daughter, Irene, now Mrs. Jerome Magee of Chicago, confided that twins arrived at the Magee home.

(Continued from First Page)

ualties suffered by the Japanese and Chinese since the fighting broke out the 3rd, place the total at more than 2250.

The Japanese authorities have announced that forty-one Japanese soldiers were killed and 189 wounded, while Chinese casualties were known to have been killed. The Chinese estimate that 2000 of their countrymen were killed or wounded, including 200 civilians.

On the evening of the 12th, the Japanese artillery during the bombardment of the walled city kept down the civilian death toll, it was said. The crowded residential quarters escaped the fiercest attack for the most part, the shells dropping almost entirely on military points.

The Nationalist defenders of the native city, who are now said to have numbered only 1500, stubbornly refused to surrender. The Chinese Chamber of Commerce to evacuate. They made good their escape by machine guns and rifle fire, with a resulting heavy death toll.

On the evening of the 12th, Gen. Fukuda, commanding the Japanese forces, gave noncombatants twelve hours to evacuate the city before entering his forces to make it with high explosives. By daybreak of the following morning more than one-third of the population had fled. The remaining Nationalist soldiers discarded their equipment and abandoned the city. By 6 o'clock the Japanese had quietly taken control.

The Japanese action here appears to have split the Nationalist forces. Part of the southern army has gone south to Tainan, where Gen. Chiang Kai-shek is believed to be making his headquarters. The remainder went to the north. All have now been expelled to beyond a six-mile radius of the city.

# RAILROAD CUT

The Japanese have cut the Tientsin-Pukow Railway in two places to prevent Nationalist reprisals. Since the Japanese have disavowed any plan to establish a government in the city, the Chamber of Commerce and other organizations have decided to adopt three measures pending settlement of the Tientsin affair. The first is the occupation and control of the railway and the establishment of a neutral zone ten miles wide around the railway and around Tientsin.

# AMOI ISLAND PORTS SHELLED BY GUNBOAT

AMOI (China) May 13. (AP)—The northern gunboat Hai Chi, pride of the Peking navy, early this morning shelled the Amoi Islands until driven off by answering fire.

Although no casualties were reported, the populace, including foreigners, was panic-stricken. The Japanese navy, which used the heavy guns, was believed to be seeking the Norwegian steamer Yale, which is unloading arms and munitions for the Nationalist forces.

# CHINA CABLES COOLIDGE ON CRISIS

SHANGHAI, May 13. (AP)—The Chinese-Japanese crisis has been formally brought to the attention of the United States government at Washington by the Nationalist Government Council of China.

While making no specific request for intervention, the Nationalist Council announced today that a cablegram had been dispatched to President Coolidge yesterday for the purpose of calling the attention to the recent clash at Tientsin and asking the attitude of the United States government "toward this grave situation created by Japan."

# SUPPORTER OF LEAGUE

It is pointed out that Japan always has been among the stoutest champions of the League and that as a permanent member of the Council it has taken a foremost role in the settlement of European disputes. It is regarded that Japan can ill afford to maintain silence now that its intentions are challenged in the Far East.

Vicente Loh, long Tokyo representative in the Council of the League, recently retired and now in Tokyo in a position to advise the Emperor and the Japanese Ministry concerning the League view of the conflict and what the occidental world is likely to expect from Japan.

# While Japan may deliver a voluntary statement to the Council, officials here are beginning to perceive difficulties in the way of an attempt of the Council to handle the technical side of the dispute because of the distance of Geneva from Shantung.

Moreover, Cheng Loh, Peking Minister at Paris, and M. Adachi, present Japanese representative to the Council, believe there are good prospects that peace negotiations will be successfully pursued at Tientsin. Kenkichi Yoshizawa, Japanese Minister to Peking, is said to be making every effort to bring about a tripartite parity between the Nationalists, northern Chinese and Japanese.

# COMPARED TO NICARAGUA

Totaro Sugimura, Japanese assistant Secretary-General of the League and chief of the propaganda section, now in Paris conferring with M. Adachi and Minister Bato, who directs the Japanese activities of the League. M. Sugimura is expected to return here tomorrow.

Diplomatic circles have been struck by an ironical editorial in the Journal de Geneve which says that the great powers have no reason to complain of Japan's attitude toward the League, which do not belong to them, with the difference that the United States wishes to establish a political protectorate over Nicaragua such as the Americans never would permit the Japanese to establish in China. The Journal sees no danger of serious complications between Japan and the United States, but only "new tension, new rancor."

# GLAND SCANDAL IN SAN QUENTIN

## Organs of Clarence Kelly Said to be Missing

Relatives of Executed Sayer Make Charge

# Prison Board Investigation Promised by Warden

SAN FRANCISCO, May 13. (Exclusive)—Charges that certain organs and glands were taken from the body of Clarence Kelly immediately after his execution at San Quentin on Friday last and placed in a patient in a San Francisco hospital were made today by Attorney Milton U'ren, acting for Kelly's relatives. The heart, brain and several other organs were removed and the body mutilated before it was released by prison authorities, he asserted.

Rigorous investigation of the charges was being prosecuted today.

FUNERAL POSTPONED

The State Prison Board assembled at San Quentin to consider the matter and determine the truth or falsity of the reports. The funeral of Kelly, originally scheduled for tomorrow, is postponed until Tuesday to permit fullest examination of the body and interrogation of all persons connected with the execution and legal autopsy following.

The body was removed after the execution to the undertaking parlors of Keaton and Duesel in San Rafael, and it was there that the asserted discovery of the mutilation was made. The undertaker told U'ren the body had been mutilated within the prison, and added that he had been kept waiting in the walls for an hour and a half for the body after the execution.

HOLAHAN SHOCKED

Warden Holahan expressed himself as being shocked at the report. He promised to investigate the charges to the best of his ability and proceed against the guilty persons if any evidence of guilt is discovered.

Dr. L. L. Stanley, prison physician, declined to make extended comment on the charges tonight, promising a statement tomorrow.

He asserted, however, that "it is customary to perform an autopsy on all persons dying within the prison without special consent of relatives."

# EUROPE PLANS OCEAN FLIGHTS

(Continued from First Page)

than-air craft. The R-100 rapidly is nearing completion at Howden, Yorkshire, Eng. It will carry 100 passengers, a crew of forty, tons of mail, and make the journey from England to America in forty-eight hours. The flight is scheduled for the late summer. In England, a sister ship, the R-101, is proceeding more slowly. A semi-rigid airship, the R381, about one-fifth the size of the R100, is planned by the British Airships Ltd. for a trans-Atlantic flight. In Germany, a Zeppelin is being built competing in point of constructional speed with the R100.

From the little countries of Europe come reports of great airplaning activities. Capt. Kowalewski of Poland says he will fly from Warsaw to Chicago, with Ireland and Cape Race as way points. He will be accompanied by a civilian pilot and a journalist. He is hesitating between a Dutch Fokker airplane and an Italian plane.

The old Viking route to Vinland is to be followed in a flight planned by the Swedish geologist, Rakon Wadell, now studying at the University of Chicago. He expects to fly in a three-motored seaplane to America by way of Norway, Iceland, Greenland, Labrador and Canada.

# OSTEND PRIZE

Belgium has come to the fore with an offer of \$30,000 to the first airman who lands at Ostend from New York. Other prizes are offered to the airman arriving second and third. The competition is under the direction of the Belgian Aero Club.

Senor Pablo Rada of Spain, and Maj. Franco have made a super-flying boat equipped with four engines of a total of 2000 horsepower in which to fly around the world. All in all, therefore, it will be a busy summer, with many new things going on just up beneath the sun.

# MINE SHAFT BURNS

TOMBSTONE (Ariz.) May 13. (Exclusive)—The shaft house, change room, blacksmith shop, lighting and power plant and offices of the Telon mine, at Gleason, have been destroyed by fire. Eight men working underground were brought to the surface before the shaft was surrounded by flames.

Hawaii having proved attractive to too many Filipinos, there are 11,000 natives of the Philippines out of work in the Hawaiian Islands.

Spectacular War Game at Hawaii Resumed  
United Fleet Will Bombard Oahu Wednesday  
Homeward Start Scheduled Five Days Ahead

**BY WALDO DRAKE**  
"Times" Staff Representative  
ABOARD U.S.S. ARIZONA OFF HONOLULU, May 13. (By Radio) At daylight tomorrow the Pacific battle fleet will resume its spectacular war play off Lahaina Roads here with more than 100 major warcraft and airplane squadrons splitting into two fleets for a simulated defense of and attack on Hawaii, the maneuvers to end in a concerted "bombardment" of the coast defenses of Oahu on Wednesday night.

**FOURTH ASSIGNMENTS**  
The ships will remain at anchor on the home bases at Los Angeles Harbor and San Diego until July 1, when they will be distributed on the Pacific Coast as follows for the Fourth of July celebrations:  
The flagship West Virginia and aircraft carriers Saratoga and Lexington and train will observe Independence Day at San Pedro; the U.S.S. Arizona at Long Beach; the U.S.S. California and destroyers Mulholland and Mervine at Santa Barbara; destroyers and aircraft squadrons at San Diego; U.S.S. New York at Oakland; U.S.S. Mississippi at Ventura; U.S.S. Maryland at Santa Cruz; U.S.S. Tennessee at Monterey; U.S.S. Colorado and destroyers La Fayette and Yarrowburgh at San Francisco; U.S.S. Melville, Hull and Melvin at Mare Island; U.S.S. Pennsylvania at Seattle; U.S.S. Mexico at Tacoma; U.S.S. Idaho and destroyers Reno, Percival and McCawley at Bremerton; U.S.S. Zelle and William Jones at Everett; U.S.S. Somers and J. P. Burns at Port Townsend; U.S.S. Thompson and Stoddard at North Bend; U.S.S. Farquhar at Crescent City; U.S.S. Kennedy at Newport, Or.

**HOMEWARD PENNANTS**  
Under the schedule announced by Admiral De Steiguer, most of the ships of the fleet will break out their homeward-bound pennants for the Pacific Coast on June 16 with the exception of the submarine divisions, which will remain at Honolulu for maneuvers.  
On June 16, the light cruisers Trenton and Memphis sail from here for duty in China; June 2, the light cruiser Milwaukee sails for Mare Island, and the U.S.S. Raleigh for Boston on June 4, while the light cruisers Richmond, Marblehead and Cincinnati head for San Francisco June 16, after the rendezvous before the defenses of Oahu.

**Senate Banking Group Approves Broker Warning**  
WASHINGTON, May 13. (By) Submitting a report on the La Follette resolution approved by the Senate Banking Committee asking the Federal Reserve Board to admonish member banks to restrict the amount of brokers' loans. Chairman Norbeck of the committee warned Wall Street that "the situation is and continues to grow more dangerous."  
In his report Senator Norbeck called attention to the fact that brokers' loans have increased from \$2,788,685,000 in January to \$4,361,108,000 the 9th inst., a new high record. He said it was obvious that the loans from New York member banks of the Federal Reserve system were for speculative purposes.  
"Congress and the country," the report said, "are looking to the Federal Reserve Board for leadership in matters of banking and finance in order that we may not have the unnecessary repetition of disasters that have befallen us in the past."

**Huge Air Camera Ready for Test**  
NEW YORK, May 13. (Exclusive) The world's largest aerial camera, designed to operate at a height of more than five miles, is to be given a test on Long Island within the next two weeks, it was learned today.

**Two Believed Lost in River**  
SACRAMENTO, May 13. (By) Two men, one believed to have been J. C. Coombs, prominent Sacramento motorboat enthusiast and radio expert for a local department store, are thought to have been drowned in the Sacramento River three miles from this city early this afternoon. The men were riding in a speed boat following another boat up the river when their craft overturned. The incident was witnessed by the owner of a houseboat near by, who informed the Sacramento Sheriff's office.

**GRASSHOPPER CLUB**  
HUTCHINSON (Kan.) May 13. (Exclusive)—A Grasshopper Club is the newest organization for Hutchinson but it is to have a limited membership, residence in Reno county during the grasshopper invasion of 1923, the worst the State has ever known, being a requisite.

NAVY SELECTS  
RACE AVIATORSNineteen Scheduled to Enter  
Curtiss ContestLargest Army Ever Listed for  
This EventWinner's Name to Be Placed  
on Huge Trophy

WASHINGTON, May 13. (AP)—Nineteen naval aviators have been named at the Navy Department to pilot seaplanes in the Curtiss Marine trophy race at Anacostia naval air station here next Saturday under the supervision of the National Aeronautic Association.

This is the largest number of pilots ever entered in the race, which was inaugurated in 1915 by Glenn H. Curtiss, aviation pioneer. They will compete in five types of craft, including fighters, torpedo, observation, amphibian and training planes, in the 100-mile race on a twenty-mile triangle course over the Potomac River. The speeds of the craft range from 55 to 160 miles an hour.

The winner's name will be inscribed on the huge Curtiss trophy which is on exhibition at the Navy Department, and prizes will be awarded the winner of each class. In addition, Assistant Secretary Warner has offered a trophy to the

PLANE FLOPS,  
PILOT DROPSBritish Officer Dropped Out  
Lands Safely 2000  
Feet Below

LONDON, May 13. (Exclusive)—Flying Officer V. O. Kyrle has had the unusual experience of falling out of his plane and landing unhurt 2000 feet below. The officer, proceeding over Little Laver, Essex, was reading his map when it slipped from his hands.

To reach it he unstrapped his seat belt and bent down to pick the map up. As he did so the plane turned upside down, dropping Kyrle out. His parachute worked and he landed safely. The plane was found half a mile away, wrecked.

LOWDEN MAKES  
REPORT TODAYWill Appear Before Senate  
Funds CommitteeSenator Watson of Indiana  
to Follow HimTwelve Candidates Spend  
About \$500,000

WASHINGTON, May 13. (AP)—Frank O. Lowden of Illinois, who is seeking the Republican Presidential nomination, will give his testimony here tomorrow before the special Senate committee investigating pre-convention campaign expenditures.

The former Governor of Illinois will be the thirteenth candidate for the Presidential nomination to be heard by the committee, as it opens the second week of its inquiry, at which for the first time in history candidates themselves have been called before a Congressional committee.

After the questioning of Lowden, the committee will hear the last of the candidates, Senator Watson of Indiana, and then will turn again to the matter of the detailed receipts and expenditures on behalf of the leading aspirants, Republican and Democratic.

Information thus far received by the committee indicates that the

PROOFS REVEAL

And Error on Word  
Stands Corrected

NEW YORK, May 13.—Gov. Smith, born and reared on the sidewalks of New York, nevertheless is a farmer to the Encyclopedia Britannica. His biographer, Henry F. Pringle, today received proofs of an article on Smith that he had written for that august set of tomes. The word "truckman"—used to describe one of Al's early business ventures—had been changed to "market gardener."

Pringle made a concession to English as the English see it. As the proofs stand corrected, the Governor will be a "drayman."

CONGRESS WILL  
SPEED PROGRAMAdjournment in Two Weeks  
Goal Set by LeadersPlans Due to Early Opening  
of G.O.P. ConventionJohnson Urges Boulder Bill  
Action by House

WASHINGTON, May 13. (AP)—With the opening of the national political conventions less than a month away, Congress will set out this week to speed up its legislative program with a view to adjournment well in advance of the gathering of the Republicans at Kansas City on June 13.

Leaders have set as their goal a date not later than the 26th inst., which would give two weeks for clearing up the tax-reduction bill and other problems which may have a possibility of solution at this session.

With the Mississippi flood-control bill already awaiting the President's signature, the leaders hoped to send two other major pieces of legislation to him this week—the McNary-Haugen farm relief bill and the Jones-White merchant marine measure.

AS TO MARINE BILL  
Since the farm bill carries the equalization fee which was the primary cause of the veto by Mr. Coolidge at the last session, there appears to be little possibility that it will meet with executive approval. Admittedly there are not the votes in Congress to override a veto and there will not be time for the enactment of any other form of farm relief before adjournment.

House and Senate conferees have agreed to a form of merchant marine legislation which they are hopeful will meet with the approval of Mr. Coolidge, thus making possible what they regard as a necessary program of replacement of the government merchant fleet and its eventual transfer to private enterprise.

Approval of the conference reports by the two houses on the farm relief and merchant marine measure is to be asked during the week with little probability of opposition in either House as the fundamental principles of each bill have been approved by both houses by a large majority.

BOULDER DAM BILL  
Resuming consideration tomorrow of the tax revision bill, the Senate is expected to reach a final vote within a few days.

While the Senate is wrestling with the tax problem, the House will take up the Hawley-Coopar prison labor bill and the Denison measure to extend the Mississippi River barge line from St. Louis to the twin cities.

With the expectation that these two measures will be disposed of within two days, leaders again have made the Muscle Shoals bill the order of business for Wednesday under such a rule as should bring a vote that day. Should these plans go awry final House action on this long-standing problem will go over to another session.

While the House Rules Committee may give the Boulder Canyon dam bill preferred status before adjournment there is little likelihood of legislation on this subject at the present session. Senator Johnson, Republican of California, cosponsor of the measure, has stated that he would be satisfied if the House passed the bill at this session and the recess period could be devoted to a study of the whole problem by a commission with a view to final Senate action at the next session.

Angeleno Gives  
Massachusetts  
City Park Fund

NORTHAMPTON (Mass.) May 13. (AP)—A gift of \$450,000 and a farm valued at about \$80,000 to this city by Mrs. Fannie B. Look of Los Angeles for establishment of a park in memory of her late husband, Frank Newhall Look, was announced by Mayor Andre today. Mrs. Look stipulated that no Sunday baseball be permitted in the park. Look was president of the Florence Manufacturing Company, now known as the Propylactic Brush Company, and a resident of this city.

Scouts Compete  
in African Trip

NEW YORK, May 13. (AP)—Seven Boy Scouts, selected from thousands who participated in a nation-wide elimination contest, have been summoned to New York for final tests in which two of the number are to be chosen to accompany Martin Johnson on a camera safari through the big game country of Africa this summer.

Names of the seven Scouts, made public by the New York office of the Boy Scouts of America which is supervising the eliminations, include: Robert Dick Douglas, Jr., Greensboro, N. C.; Carl Zappe, Braintree, Mass.; Bernard Queneau of New Rochelle, N. Y.; Mark M. Hughes, Joliet, Ill.; Edward B. Pratt, Fairfield, Ct.; David B. Martin, Jr., Austin, Minn.; and Douglas L. Oliver, Atlanta, Ga.

The boys range in age from 14 to 18 years, and the two selected will go to Africa as guests of George Palmer Putnam and his son, David Binney Putnam.

FORD CHECK REFUSED  
AUSTIN (Tex.) May 13. (Exclusive)—A check for \$8000 from Henry Ford, the world's richest man, was not good in the franchise tax office here. Mrs. Jane Y. McCollum, State Secretary, sent it back to Henry. She didn't doubt the genuineness of the check but her department won't accept checks.

Wanted Clarence L. Pierson's address. Supposed to be teaching commercial message writing. Address Mr. Pierson at course in or near Pasadena. Import-Export Office.

### BARNES, DRAPER WILL BE READY

Measles Victims Expected to Leave With Team

Trojans Depart Friday for I.C.A.A. Meet

Hurdling of Graham, Payne Impresses Cromwell

BY BRAVEN DYER

Unless unforeseen complications arise Capt. Lee Barnes and Weldon Draper will be able to leave with the Southern California team Friday when the Trojans pull out for the I.C.A.A. meet. The two track athletes are at present afflicted with the measles and it was feared for a time that they might have to stay at home or perhaps leave a couple of days after the main body departs.

But reports yesterday were that the doughty pole vaulter and the fleet sprinter have only mild attacks of the disease and that each will probably be ready when the boys board the train Friday. Barnes was struck down last week, but the

(Continued on Page 2, Column 2)

### STEALING THIRD AND HOME WITH JULIE WERA

If the boys won't bat you around the bases Wera believes in pilfering his way to a run. Wera opened the fourth inning of the opener with a double off the left-field bricks and then stole third and home, working a double steal with Johnny Basher to score. The top photo shows Wera sliding safely around Freddy Muller into third base. Below we have Wera upsetting Catcher Walter Schmidt as he slid over the plate with his run. Umpire Genshies is the interested spectator watching the collision.

(Photos by Bill Snyder, Times Staff photographer.)

### KRUGS AND SACS SPLIT TWIN BILL

Angels Annex Morning Game, 3 to 1, But Drop Other, 7 to 5

SACRAMENTO, May 13.—Los Angeles and Sacramento split today's double-header here. The Angels copped the morning encounter.

Through the superior pitching of Peters, 3 to 1, while the Solons took the afternoon encounter, 7 to 5, and the series by the odd game.

The Angels started the second encounter as if they were out to take the series. They accumulated a four-run lead for Cunningham, but a terrific batting assault in the third frame sent him to the showers.

Two infield singles by Jones and Berger, and Hoffman's throw into the Sacramento dugout to catch Berger off first netted a tally in the first inning.

"Truck" Hannah delivered an ever-the-fence wallop in the second for another bachelor tally and then in the first half of the third inning the Los Angeles wrecking crew chalked up two more. Jones shot a single to right field and Berger rattled the left-field fence for two bases, scoring Jones. Hood singled into right field to chase over Berger.

Just as completely as Cunningham had fooled the Senators for the first two innings, so he failed to fool them in the third. McLaughlin singled, and after Rachac had fanned, French singled, putting McLaughlin on third. Backer doubled to left to score McLaughlin, and then French came in on Staley's error in taking the throw from the outfield. Frank Coburn thereupon proceeded to tie up the game with a home-run drive over the fence, for a total of four runs for the inning.

Weatherby came out to the

### MANDELL, McLARNIN IN CLASH

Jimmy Meets Sammy for Lightweight Title in New York Thursday

NEW YORK, May 13. (P)—Sammy Mandell, the Rockford (Ill.) flash, gambles his world's lightweight championship against the destructive right hand of "Baby Face" Jimmy McLarnin at the Polo Grounds here Thursday night.

Mandell's title defense will be his second since he won the crown from Rocky Kansas at Chicago two years ago.

The champion risked his crown against Phil McGraw last year, but since then has been content to appear in no-decision and catchweight bouts.

Relying upon the destructive power of his right arm, McLarnin has waded through the strongest opposition in the last few months, capping his campaign for a title bout by knocking out Sid Terris, "The Ghettie Ghost," in a single round at Madison Square Garden. Terris had been the logical contender.

(Continued on Page 2, Column 2)

### SALO WINS LAP IN DERBY

Gardner Finishes Second; Payne Ties With Two Others for Sixth Place to Control

ARROWHEAD BEACH (C.) May 13. (P)—John Salo, Passaic, N. J., led C. C. Pyle's coast-to-coast pavement pounders into their seventy-first control here today, traversing the 51.4 miles from Elyria, O., in 7:13:34. Salo ranks second in the union derby with an elapsed time of 48:37:40 for the 2804 miles to date.

Andrew Payne, Claremore, Okla., Harry Share, 50, San Francisco, oldest runner remaining in the race, was definitely put out of the grind today when he was run down by an automobile. The Californian sustained a possible fractured skull, wrenched pelvis and contusions when he was run down by a car driven by A. H. Silberberg, Niagara Falls, N. Y., seven miles east of Elyria today.

He was removed to an Elyria hospital where he was reported in no immediate danger. He stood twenty-third in elapsed time when forced out. His withdrawal reduced the field to fifty-five.

Frank S. VonDuse, Kerman, Cal., finished fourth today in 8:10:12, total time, 55:57:18, and Guisto Umek, Trieste, Italy, came in fifth (Continued on Page 2, Column 3)

Ed Gardner, Seattle negro, finished second today in 7:45:30. His total running time was 53:37:53. He seemed to have successfully warded off a "split" that threatened to eliminate him from the grind.

Mike Joyce, Cleveland Irishman, headed the runners through his home city today but lost the advantage before the control point was reached and finished third today in 7:48:30. His elapsed time was 51:28:54.

### GENE TUNNEY TRAINING

SPECULATOR (N. Y.) May 13. (P) Buried away once more in his mountain training retreat, dozens of miles from a railroad station, Gene Tunney today settled down to the task of fitting himself for defense of the heavyweight championship against Tom Heeney, New Zealand blacksmith, late in July. Within an hour after the champion arrived here late yesterday afternoon, he was on the road for a

### LAUDS BOOMER FOR 1 AND 2 WIN AT ST. CLOUD

I had not been on the St. Cloud course for several years, but I found it in excellent condition—one of the most beautiful golf courses in Europe. Boomer, who has had an off season, is certainly ready to flash well. He told me today that he will go to America with me to play in the open championship at Olympia Field, Chicago. He will sail June 2 with Archie Compston and myself. If he plays as well at Chicago as he did today, he will be a dangerous competitor. Among

### NEW YORK OUT OF FIRST SPOT

Cincinnati Takes Lead as McGraw's Men Fall

Sheriff Blake Saves Game for Chicago Club

Goes to Bush's Rescue and Stops Giants

CHICAGO, May 13. (P)—Travis Jackson's three errors provided the break which enabled the Cubs to take their second straight game from the Giants, 6 to 5, today. It was the eighth straight victory for Chicago.

The Giants scored five runs in the third inning on bunched hits and a double by Johnnie Mercer. But the Stars believe in making hay while the sun shines, for this week they will be up against the surly Gulls in San Francisco and that's no picnic for anybody, including our league-leading Sheiks.

With Curtis Fullerton dealing out a str-hk brand of ball, the opener was just a warm-up for the Stars. Skipper VME's prides and joys found the going considerably tougher in the nightcap, but Johnny Kerr's

(Continued on Page 2, Column 4)

### ROGERS COMEDIANS TAKE POLO TILT AT UPLIFTERS

BY FRANK ROCHE  
Will Rogers and his polots, who call themselves the Comedians, had the last laugh yesterday on Dr. Harry Wilson and his Buccaneer riders after a spirited mallet skirmish on the Uplifters' Field at Santa Monica. Rogers and his fellow-comedians, Jim Colt, Charley Wrightman and Clair Bronson, earned their giggle after nine periods of furious polo. The Comedians defeated the Buccaneers by a 10-to-8 score in a game that was packed with thrills from the opening throw-in. The going was so fast and playing so close that the riders were forced into an extra period to decide the issue. Yesterday's mallet clash, which was the second on the Uplifters' summer polo program, was by far the hardest fought game ever staged on the Santa Monica field.

Rogers and his team-mates proved that they were far from being a joke as polo players in the battle. The com-chewing wit from Beverly Hills also showed that he is almost as good with a mallet as he is at making jokes. Will was in the thick of the fight at all times leading his riders on. On the other hand, Dr. Wilson and Buccaneers were also on their game yesterday. Both teams played

## SOVIET MINE TRIAL FRIDAY

### Fifty Russians and Three Germans Accused

### Charged With Plot Against Coal Industry

### Defendants Said to Be in Foreign Employ

MOSCOW, May 13. (AP)—The building which was a most renowned meeting ground of Russian nobility under the Czar and which now is the center of the revolutionary cultural activities, next Friday will be turned into a courtroom for the trial of fifty Russians and three German mining engineers. They are charged with attempting to destroy the coal industry of Russia, thus to pave the way for a gradual capitulation by the Soviet to the capitalist world. The first announcement of the arrests and preliminary accusations sounded so fantastic that skeptics of Soviet methods suggested they had been trumped up in order to eliminate undesirable intellectuals.

The publication of the voluminous indictment and confessions said to have been made by nearly half of the defendants, has thrown new light, however, on the hidden menace against one of the key industries of Russia. M. E. Lysenko, one of the best known Russian mining engineers, said in part in his confession: "The entire technical staff, with rare exceptions, is uniformly colored and equally untrained for the Soviet regime." The confession said that investigation in many coal fields would disclose destructive processes continuing among technicians despite their oath of loyalty.

## Market Reports Over the Radio

FRESNO, May 13.—Transmission of the Federal State Market News reports from Sacramento to Fresno, Los Angeles and other shipping centers may be accomplished by means of radio during the coming harvest season, according to advice received here today from Director Hecke of the State Department of Agriculture.

## MANY APPLY FOR TEACHERS' JOB

GLENDALE, May 13.—Applications have been received from approximately 260 school-teachers who are anxious to join the faculty of the Glendale schools at the opening of the next school year in September, and the candidates for vacancies, that will not number more than twenty-five, will be examined to test their ability and their educational attainments.

## SERVICE CLUBS TO HOLD "GET-TOGETHER"

HUNTINGTON PARK, May 13.—Plans are being made for a "get-together" meeting to be held at Masonic Temple on the evening of the 29th inst., when all the service clubs of the city will take part. The clubs here are the Exchange, the Rotary, the Kiwanis, the Lions, the Optimists and the "20-20" club. Dinner will open the evening's meeting to be followed by speaking and entertainment. It will be a stag affair.

## FIVE PRISONERS ESCAPE

FLORENCE (Ariz.) May 13. (Exclusive)—Five prisoners fled from the State penitentiary here and are being sought by the State authorities. Two of them, in the early evening, scaled the walls of the prison yard, using hand carved timbers. The others have been elected principal of the Corcoran grammar school.

## MISSION BELLS RING AGAIN

### Chimes of Old Santa Clara Peal From Church on Campus of Catholic University

SAN JOSE, May 13. (AP)—Mission bells, which 100 years ago called Indian converts to worship, this morning summoned priests and students to the dedicatory services of the new Santa Clara mission on the University of Santa Clara campus. The new mission church is but a short distance from the spot where, 144 years and three days ago, Father Junipero Serra himself dedicated the first Santa Clara mission. The new mission was built on the site of the second Santa Clara mission, erected in 1822, which was destroyed by fire on October 28, 1926.

## STOCK PRICE DECLARED TO BE TOO HIGH

### Bank of Italy Heads Warn Against Speculation in Shares of Subsidiary

SAN FRANCISCO, May 13. (Exclusive)—Warning the "misguided" people who have been endeavoring to buy stock of the Banca d'America d'Italia, a subsidiary of Bancitalia Corporation, that they are paying an unwarranted price for the stock and are engaged in desperate speculation or gamble, James A. Bacigalupi, president of the Bank of Italy, today issued a statement denouncing the "frenzied demand" for the stock and announcing that the offering of the stock shares to the public had been withdrawn.

## GRAPE MEN OF VALLEY TOGETHER

### Kern County Vineyardists Will Effect Organization in Near Future

BAKERSFIELD, May 13.—Permanent organization of the Kern County Grape Clearinghouse Association will be effected here during the latter part of this month, when representatives elected by the vineyardists of seven grape-producing areas of the county, will be called together by H. K. Dickson, chairman of the Kern growers' advisory committee, to discuss the clearinghouse plan. Charles LaDow is the Delano advisory board member, and P. D. Enns similarly represents Shafter.

## FARM OFFICIALS IN BAKERSFIELD

BAKERSFIELD, May 13.—Farm officials and farmers from five San Joaquin Valley counties comprising the third region of the State Farm Bureau Federation will meet in Bakersfield on the 26th inst. for an all-day session. It was announced today by J. P. Herfel, assistant farm adviser. The counties of Madera, Fresno, Kings, Kern and Tulare will be represented at the meeting, which will be for the purpose of summarizing valley work, reviewing extension activities and discussing membership plans.

## VETERANS ENTERTAIN AT MOUNTAIN LODGE

BAKERSFIELD, May 13.—Entertaining Legionnaires and their families from throughout the California division at one of the most enjoyable functions in the history of the State veterans of the World War, Kern County Veterans No. 93, Forty and Eight Society, was held Saturday and Sunday at a "promenade" celebration at the society's mountain retreat near California Hot Springs. The affair was presided over by Ray Carlisle, chief of Kern Veterans.

## CHICKS MOTHERED BY FEATHER DUSTER

HIAWATHA (Kan.) May 13. (Exclusive)—Mrs. H. A. Fairchild has discovered that little chicks do not necessarily have to be mothered by a hen. She bought some incubator chicks and then she kept almost drove her wild. Then she hit upon the scheme of putting them under a feather duster at night and they were silenced.

## DRY OFFICIALS PLAN PARLEY

### Conference on Enforcement Stated for This Week

### Five Administrators in West to Meet at Seattle

### Details of "Secret" Confab Published in North

SEATTLE, May 13. (AP)—The Post-Intelligencer will say tomorrow that the five prohibition administrators for the western half of the United States will hold a secret conference in Seattle this week to consider means of tightening up prohibition law enforcement throughout their territory. The newspaper will say that plans for the conference also are being held secret but that it has been definitely learned that the prohibition authorities are on their way here.

## BAY CITY TO INVESTIGATE OCCULTISM

### Swamis and Yogis Will Be Watched to Prevent Deceiving of Credulous

SAN FRANCISCO, May 13. (Exclusive)—Launching a rigid investigation of Swamis, Yogis and other lecturers on occultism, Detective Captain Matheson has detailed Detective Lieutenant Hoerikorn, Detective Harris and several "undercover" men to start a city-wide survey today to determine whether any misleading statements are contained in the literature and lectures of the "professors."

## LOW Summer fares BEGIN MAY 22

### to the East—to National Parks—to scores of places that offer a lightfully different vacation!

THESE greatly reduced excursion fares apply to practically every point in the United States and Canada. They can include interesting side trips to Yellowstone and other National Parks, and to other fascinating scenic places at moderate cost. Unique Salt Lake City, Denver, Colorado Springs and Rocky Mountain National Park can be visited without extra railroad fare. Choice of return routes with liberal stop-over privileges in either direction.

## Fine Fast Trains

Luxuriously appointed with features that make for the utmost convenience and comfort in travel.

### LOS ANGELES LIMITED GOLD COAST LIMITED CONTINENTAL LIMITED SPECIAL TRAIN

For those who desire early departure May 22, a special through train will leave Los Angeles at 9:00 a. m.

## SKYSCRAPERS DISAPPROVED

**Havana May Legislate Against Them to Preserve  
Her Old World Skyline as at Present**

HAVANA (Cuba) May 13. (AP)—Cuba, realizing that it is fast losing its Old World glamour through the injection of modern American architecture and tall buildings, is seriously considering legislation which would place restrictions on building and thus retain the skyline of Havana.

The narrow streets of Havana's old town, the famous Malecon—the famous seashore drive—the majority of the buildings are but four stories. Here and there, however, a modern apartment building towers above the others. This ruins the pleasing consistency that used to exist, Cuban officials say, and destroys the "dream-city" picture obtained from ships coming into Havana Harbor.

Boston's auto tourist camp is right in town, with paved streets and brick apartments all around it.

for the killing. The inquiries had come to the attention of the Sheriff. One of the incidents was the inquiry the night before Mrs. Netherton was found slain of a man who asked the way to the home of Mrs. A. W. Mollison, mother of Mrs. Netherton. Mrs. Mollison had been dead several years and for a long time had been known to Olathe and vicinity as Mrs. A. W. Strahl. She had regained her maiden name after a divorce.

There was another inquiry about 10 o'clock the night of the shooting by two men in a motor car, who asked C. D. Hames, a neighbor, the way to the Netherton home.

The chief defense witness in this unusual case will be Mrs. Bertha Strahl, 65 years of age, of Lawrence, Kan., a cousin by marriage of Mrs. Netherton. Mrs. Strahl has a yellowed document listing the mysterious murders in the family and defense counsel says they have been verified.

The first in the chain of death was the murder of Dode Strahl, a nephew of Mrs. Strahl's mother, in 1882. He was shot to death near Deadwood, S. D., while coming down from the hills with a load of hides. Dode was a hunter.

The second was the murder of Roll Strahl the same year. Roll, a brother of Dode, was found dead in his farm wagon in which he had started from Extra, Iowa, to his farm. There was a bullet wound in his body.

## BANDIT SPARES HOME TOWN BUT SETTLES OLD GRUDGE

SAN MIGUEL ALLENDE (State of Guanajuato, Mex.) May 13. (AP)—Candido Sanchez is considerate of his home town. Candido grew up here. He was a bright, ambitious boy. He went out into the big world and made his mark as a successful bandit. He became the leader of a small but efficient gang. Sometimes he sent money home to his poor old parents.

Recently, at the head of his armed men, Candido galloped down the familiar streets of his old home. Doors were hurriedly closed and barred and shutters lowered. People covered within their houses and stores, thinking the looting usual upon such occasions was to occur. They considered it not very nice of Candido to treat his town that way. Candido didn't. He told his

former neighbors to have no fear. He said he had only returned to adjust a minor personal matter with a man named Martinez. Candido found the man named Martinez, shot him three times and rode away with his followers without damaging the town at all. The people were quite pleased and grateful.

Martinez was embalmed and buried. It seems he and Candido had a little difference of opinion a long time ago before Candido went away and became a big man. Nobody could remember what the argument had been about.

Wanted Clarence L. Peterson's address. Supposed to be teaching commercial course in or near Pasadena. Important message waiting. Address 14, box 236, Times Office.

## ART FAKING APPROVED

**Seen as Strong Force in Decorative Industries by  
French Writer, Who Lays It to Living Costs**

PARIS May 13. (AP)—The "art of faking," highly perfected, is now a strong force in pictorial art, literature and the decorative industries, says Henri Duvernois, a writer. It is the high cost of living that has altered art morals, he says, and the world is better off that way.

Young stars of modernist fame—those who have found their canvases imitated so well that they could not decide definitely which were theirs. Utrillo, among others, recently made the round of art galleries and saw his name signed to so many pictures whose authenticity had not been questioned, but which the artist was certain he never painted.

Likewise in literature, says Duvernois, it is the fashion to take ideas and whole passages, refigure

# Insure Yourself a Trouble-free, Low Cost Vacation Trip This Year—Equip Your Car Now With "Stage Line Built"

# SAMSON TIRES

Balloon — High Pressure — Stage and Truck

Vacation time is here — the two weeks that you are going to have off — the several summer holidays and the many weekend jaunts that you have planned for months.

Regardless of where you are going or what you plan to do, you certainly don't want your vacation spoiled by tire trouble. Nor do you want to have to spend part of your vacation money buying tires right in the midst of it.

There is one way you can guard against this—that is to put on your car the best tires made—tires so rugged, so dependable, so sturdy that there is no chance of trouble or expense.

Put on your car the same construction in tires that the big stage lines use to carry massive, heavily loaded busses along the highways, over mountains, in heat and cold, with never a stop for repair on the road.

Samson is the only tire built of stage line construction in pleasure car sizes—and at a cost no higher than that of other good tires.

What it has done for the stage lines you can realize it will do even more for your lighter car.

Look into your tire situation now. Put on Samsons and have a happy, trouble-free, low-cost vacation trip this year.

## THE DAWN OF A NEW ERA

# The Introducing the latest Refinement in "Talking" Motion Pictures RCA PHOTOPHONE

Today, mankind sees all . . . hears all! The Bremen's arrival is witnessed on the screens of the world a few days after its landing.

The President of the United States speaks in Havana, and is heard practically around the world.

In a period of a little more than a decade, our eyes and ears—the two avenues of approach to the human mind—have traveled farther through space than in all the preceding centuries.

### "Sound Films" Now Perfected

And now with the perfection of sound films, sight and hearing are to be combined simultaneously in one great medium, with universal accessibility and availability.

In our schools, churches and other institutions, as well as in the motion picture theatres of the country, we are to hear and see what takes place at great national events.

We are to hear, as well as see stirring dramatic successes, captivating musical comedies, exquisite symphonies and alluring operas, as presented in the original and with the *tonal fidelity of the original*.

We are to watch the superb mimicry of a Chaplin, the daredevilry of a Fairbanks, the witchery of a Garbo, revealed without the abrupt intrusion of the unnatural subtitle—enhanced by the emotional appeal of the human voice—invested with realism of natural sound effects, or embellished by symphonic musical accompaniments.

In the business laboratory as well as in the scientific laboratory, in the class room as well as the lecture hall, we are to have explained, as well as visualized for us, subjects of a commercial, educational and cultural value.

### The Silent Drama Speaks

Indicating its dual purpose of audibility and imagery, this latest refinement of "talking pictures" has been called the RCA Photophone.

It comes to us through the tireless research and ingenuity of the foremost electrical communication engineers in the

*A Perfect "Sound Film" for Theatres and other Public Institutions—Product of the Radio Corporation of America, the General Electric Company, and the Westinghouse Electric and Manufacturing Company.*

country, and is the product of the greatest companies in the electrical and acoustical fields—pioneers in the development of sound reproduction on motion picture film—the Radio Corporation of America, the General Electric Company and the Westinghouse Electric and Manufacturing Company.

Embodying revolutionary projection and acoustical improvements, RCA Photophone is as far removed from similar devices as the present-day radio is from its first models. Its public introduction has awaited "complete practicability" and the realization of its sponsors' ideals in sound amplification and tonal qualities. *Nothing equalling it in tonal perfection has ever been offered the theatres or the public.*

The human voice is reproduced by the RCA Photophone as a *real voice* rather than as the emanation of some mechanical force, while the most delicate tones of a symphonic orchestra reach their hearers with the tonal beauty of the original orchestration. There is absolutely no over-loading, no distortion, no unnatural volume.

### A New Technique in Entertainment

The perfection of so-called "talking pictures," as represented by RCA Photophone means not only a different kind of film fare—less circumscribed themes and casts—but that the potentialities of future screen entertainment will be measured by a new dimension.

It means pictures of greater variety and broader appeal because of the removal of those restrictions heretofore imposed upon the screen by its lack of voice. It means the employment of trained play-writers with a knowledge of the stage as well as of the screen for the construction of effective speaking lines.

It means hearing and seeing the world's foremost artists only at their best, since their performances can be retaken until

the desired perfection has been attained.

RCA Photophone will bring to motion pictures the vast entertainment resources of radio, as well as of the screen and stage.

The full significance of the coordination of those two great mediums of entertainment—radio and the screen—

can now be forecast. The time is not far distant when all motion pictures will be accompanied by sound effects, either in the form of speech or properly synchronized vocal and instrumental musical score.

### A New-Day Diversion

It may not be easy for some to accept this fact, but those familiar with the skepticism which greeted all advances in the world's methods of communication, from the telephone and the telegraph to screen and radio, will be quick to recognize in the RCA Photophone a means of extending the radius of the amusement field, and of human thought and speech far beyond the scope of any present-day vehicle of communication. History proves that such innovations are not created as a result of vociferous demand, but that they themselves, through their contributions to public betterment, create the demand.

There will be available for use with RCA Photophone, full length motion picture productions from front-rank producing organizations, synchronized with symphonic orchestrations and dramatic sound effects; news reels, and novelty films. Incidental and non-synchronized musical films will also be produced for pictures independent of those made for Photophone.

### "Talking Movies" For Other Uses

Likewise, the simplified RCA Photophone can be installed and used in schools, churches and other institutions. It is possible to reproduce so-called "talking movies" as easily as the ordinary radio broadcast programs are now being received. For such uses there will be available from film libraries, a wide selection of RCA Photophone features, musical accompaniments and educational films of varied character.

MINE PROGRAM  
RANKED HIGHLYOld Colony to Start Work on  
Four TunnelsPlan on Par With Comstock's  
Sutro ProjectRich Silver Find Reported in  
Silverado Vein

**KINOMAN (Ariz.) May 13. (Ex-clusive).**—That the plans of the Old Colony Mining Company, Ltd., are as important to the rich Kinoman Hill district as ever the Sutro tunnel was to the Comstocks, is declared by local mining men. Under charge of E. E. Campbell, four tunnels are to be driven into the company's lands, with two shifts of miners to be started on each opening within a fortnight.

The lowest is to be run wholly along the Prince George vein and will get 1500 feet below the company's highest outcroppings. The other tunnels, providing levels at 200-foot intervals, will be connected with the lowest, which is to handle all water and ore, the latter taken out by electric trams, for reduction in a modern mill to be built near the portal. Large water supply will be available, for the district is a very wet one, hand-pumped in the past by the cost of pumping.

Declaration is made that \$100 to the ton in silver is carried in the main vein of the Silverado property in the Walker Mountains where penetrated for eight feet of width by a crosscut. Some samples return 1100 ounces. Management is in the hands of G. S. Holmes, Jr., with him associated Peter Payson of Los Angeles.

Three feet of \$16 ore is being followed in a drift on the 170 level of the White Hills property, in a mineralized vein that is thirty feet broad. Much difficulty is being experienced with the ore.

Johnson Williams, a Los Angeles engineer, has been surveying the Silverado property, from which a recent carload of ore was shipped. The \$118 net. Plans are being made for the erection of a flotation mill at the mine, there being ample ore supply assured from the six-foot vein, with \$200,000 worth of ore estimated to be in sight.

Milling has been resumed on the Dixie Queen in the Weaver district on high-grade ore.

## The Clearinghouse

News of Spring Street

R. L. Colburn, one of the older members of the San Francisco Mining Exchange, with offices in that city has opened a branch office in the Los Angeles Stock Exchange Building. The office has a blackboard room with complete listing of the San Francisco Mining Exchange. Ray M. French has been appointed manager.

**Leaves for I.B.A. Meeting.**—John Earle Jardine, president of William R. Staats Company, left Wednesday to attend the meeting of the board of governors of the Investment Bankers Association of America at White Sulphur Springs, W. Va., the 13th to 17th inst. He will also go to New York to meet Mrs. Jardine on her return from Europe and return about June 1.

**Attends Convention.**—Mrs. Marie Farrell left yesterday to represent the Citizens' National Trust and Savings Bank at the annual convention of the National Safe Deposit Association to be held in New York City next week.

**Leaves For Six Months.**—J. Earl May, head of the trading department of the Los Angeles office of Dreyfus & Co., has left for San Francisco to relieve W. T. Mattox, Jr., in charge there, who departs for a six months' tour of the world. Mr. Mattox, assistant to Mr. May, will take his place here.

**Large Part of Stock.**—The fact that the principal owners of the company continue to hold more than two-thirds of the outstanding common shares is an apparent indication that the company is in a position to follow the last quarter of a century will be continued.

The company was organized in 1902 as a pioneer in the commercial printing field and it has maintained its position as one of the

Cotton-Crushing  
Data Released

**WASHINGTON, May 13. (AP).**—Cotton-seed crushed in the nine-month period, August 1 to April 30, totaled 4,516,344 tons, compared with 3,917,627 last year for the same period, the Census Bureau announced today, and cottonseed on hand at the mills April 30 totaled 113,019 tons, compared with 111,891 tons a year ago.

Cottonseed products manufactured during the period included: Crushed seed, 1,427,368,477 pounds, compared with 1,767,055,008 in the same period a year ago, and refined oil produced, 1,200,298,780 pounds a year ago. Cake and meal produced, 2,028,525 tons, compared with 2,643,935 tons, and lintseed produced, 847,428 running bales, compared with 973,353.

Dinner Plans of  
Credit Men Out

An interesting program has been prepared for the regular monthly dinner meeting of the Los Angeles Credit Men's Association, to be held at the Alexandria Thursday evening, next. F. E. Sanford, secretary, announced yesterday. Frank C. Weller will deliver the principal address.

F. H. McQuinn of the Union Hardware and Metal Company will discuss the subject of special investigations. A short playlet will be staged by a group of credit men participating in the office of an escrow holder, which will be a prelude to a general discussion on escrow.

OIL COMPANY TO  
ISSUE NEW STOCK

Reorganization of the Hilo-American Petroleum Corporation and the exchange of the present stock for new stock to be issued as of June 1, was announced yesterday by A. O. Wilkes, vice-president of the company. Stockholders will receive new stock rights to purchase a unit consisting of one share of the new common and one share of the new preferred at \$1.50 per unit.

## MINING INDUSTRY ON FEET

Recovery From Post-War Slump Attributed to Work  
of Engineers Along Efficiency Lines

The mining industry of the United States has solved its numerous post-war economic problems through the remarkable efficiency of the American mining engineer, who has met increased labor and supply costs and low metal and mineral prices by the devising of ingenious methods for decreasing production costs, according to Scott Turner of the United States Bureau of Mines in an address delivered at the breaking of ground for the new John Markle Mining Building at Lafayette College, Easton, Pa.

Striking instances of greatly increased daily per-capita production of ore or coal at American mining operations were cited by Mr. Turner, who declared that nowhere else in the world have such results been even approximated, except at American-operated mines in Chile.

"One copper mine in Arizona produced seven and one-half tons of ore per man-shift in 1916; eight and one-half tons in 1917; and most seventeen tons in 1926, with a dynamite consumption of one-third of a pound per ton," Mr. Turner pointed out. "Another Arizona copper mine increased its per-man-shift production from four and one-half tons in 1923 to ten and one-quarter tons in 1926. An open-cut copper mine in Utah produced eleven tons per man-shift in 1911, and by 1926, working with lower-grade ore, the production had been increased to twenty-eight and one-quarter tons per man-shift. Only one-tenth of a pound of explosive per ton of ore was used. The average daily ore-output was nearly 47,000 tons.

"To meet high labor and supply costs, the mine at Alaska has improved its mining methods that over a period of years it has produced forty-seven tons per man-shift, or an average of only one-fourth of a pound of explosive per ton of ore.

"These are examples of the best American engineers have done but not the best they will do. It is all a part of the American engineering process, whereby it appears that the average workman in the United States now puts out thirty times as much as the average man in China, Russia or India, almost four times more than the native of Italy or Japan, eight times as much as the worker in Poland, more than three times as much as the native of France or Australia, two and one-half times as much as the German, nearly two-thirds more than the workman of Great Britain, and almost one-half more than the Canadian, who is our nearest rival.

"In considering bituminous coal mining, it should be remembered that undercutting machines, replacing hand-picks, were first introduced about 1890, and that from 1890 to 1924 the average production per man per day had risen from about one and one-half to four and one-half tons. Contemporaneously, the

nonferrous field, more than three-fourths of our output today being treated by flotation, that new magic of many variations. This single improvement has made possible such vast tonnages of low-grade or complex deposits that are equivalent to a very large increase in our natural resources has been accomplished, and we are assured of larger supplies of relatively cheap metals for a long time to come."

The motorship Asiatic Prince, which disappeared a month ago en route from here to the Orient, has been given up as lost and will be replaced by the steamer London. The London Merchant was in from Europe too late to pass quarantine and will be discharged by cargo and crew this morning.

H. C. Thacker, manager of the United States Intercoastal Conference, is due to Los Angeles the 21st inst., following his present swing around North Pacific ports. He is expected to visit the conference headquarters at the Hotel Pacific Coast representative of the conference, who is due from San Francisco today. It will be Thacker's first visit to the conference since he was re-elected and he was installed as its chief last summer. All but three intercoastal lines belong to the conference.

James Stevens, writer of frontier stories, and Albert Weiden, author of the novel "The Last of the Mohicans," are expected to visit the McCormick steamer West Mahwah, due tomorrow from South America. They sailed on the steamer from New York in January for Buenos Aires on a hunt for fiction material.

Oil shipments from Los Angeles rose to 2,241,106 barrels during the week ending Sunday, a gain of 439,000 barrels over the previous week, according to the Marine Exchange. Lumber receipts dropped from 21,394,000 feet to 17,858,000. Ship arrivals at the port totaled 113, of which forty-three were foreign, fifty-two cargo, thirty-nine oil and eighteen lumber. American arrivals numbered 121, British, 16, Norwegian, 1, and Japanese, 1. Three Japanese and Mexican, one each.

The Japanese liner Ginyo Maru is due from the west coast of South America tomorrow with forty passengers for discharge here, and will sail the following day for Japan for the Nippon Yusen Kaisha. The Siberia Maru of the same line is due from Yokohama via San Francisco the 17th inst., and will discharge 100 passengers before departing the following day over the same route.

Thaddeus Street, visiting Los Angeles, represents an eastern concern, which has been in the American Hawaiian line at Charleston, S. C. Street, brother of the late Thaddeus Street, who was killed in the harbor yesterday by F. A. Hooper, says the East still cannot believe there is such a port.

## OUTLOOK PROMISING

**Large Body of Ore Reported Open in Juniper Clinchbar.**—The Nevada Quicksilver Company, operating the Juniper Clinchbar mine near Lovelock, reports the main ore body has been exposed for some feet on the 200-foot level and shows ore sampling 2 per cent quicksilver across widths varying from two to eight feet.

Plans are proceeding for the early installation of a fifty-ton rotary furnace. The company is controlled by Los Angeles capitalists, with L. A. Friedman as general manager.

MIDLAND TO HAVE  
OIL MEN'S CLUB

**MIDLAND, May 13. (Exclusive).**—Plans have been completed for the organization of the Midland Petroleum Club. W. A. Yeager, manager of the West Texas offices of the Pacific Oil and Gas Company, has been elected president. George Coates, Midland lease broker, vice-president. George Vorbe, chief geologist of the Texas and Pacific Oil Company at Midland, is secretary-treasurer.

MENGEL COMPANY  
PLANS STOCK SPLIT

Directors of the Mengel Company have called a special meeting of stockholders for the 15th inst. to vote on a proposal to change the par value of the common stock from \$100 par value to no par and split the stock four for one, according to information received here yesterday. It was also announced that application would be made in the near future to list the stock on the New York Stock Exchange.

AMERICAN COLORTYPE STOCK  
Offering Index of Trend in  
Industrial Growth

**BY WILLIAM RUSSELL WHITE.** (Copyright, 1925, by New York World & Sun, Inc.)  
It is regarded as the country's largest producer of high-grade art and commercial color type printing. It is a company of high degree of efficiency and high degree of business in which its customers are engaged.

Principal owners of American Colortype probably had these considerations in view when they sold a part of their holdings to a bank. The bank, which has marked 40,000 of the outstanding 130,000 shares.

SHIPPING NEWS  
AND ACTIVITIES AT  
LOS ANGELES HARBORNEW SHIPPING  
ENTRY LIKELYCoast Trade List May Gain  
Another French LineLos Angeles Mentioned as  
Probable Port of CallPanama Mail Vessel Slated  
for Early Arrival

Another French line, the Messageries Maritimes, is reported negotiating for entry in the Pacific trade, with probable ports of call at Los Angeles and San Francisco or possibly another Pacific port.

Details are few. It is understood officials of the line are conferring in New York this week, and certain west coast shipping men interested in landing the line's agency are reported to be there. It also appears the proposed service is trans-Pacific, but whether it also will involve the Panama Canal is left vague.

The line now operates combination passenger and freight vessels from Marseilles to Yokohama and Central America. Among the vessels in the line are the Panama Canal is left vague.

LINER ECUADOR  
DUE IN PORT THIS WEEK

The Panama mail liner Ecuador is due the middle of the week with seventy-five passengers from New York and Central America. Among the passengers are Miss Sadie Ives, Bible student of Los Angeles, just completing religious research in Greece, Egypt and Palestine. W. E. Ward, publisher of the Los Angeles Times, is also on board.

The Ecuador is a 10,000-ton vessel, built in 1914, and is the latest addition to the Panama line. It is a fast and comfortable vessel, and is expected to be a popular port of call for Los Angeles.

# OIL and MINING

## SEACLIFF FIGHT EXPENSIVE

Suit to Test Legality of State's Oil Land Leasing Act Costs Taxpayers Heavily in Royalties

That the taxpayers of California are losing money at the rate of 125 barrels of oil a day because certain State officials threw the State Oil Land Leasing Act into the Supreme Court six months ago for a constitutional test, was revealed yesterday in a survey of production at Seacrest in Ventura county.

Since the Attorney-General and Surveyor-General clouded the leasing act with doubt and the State refused to issue permits for drilling wells on tide lands at Seacrest, oil companies which held leases on fee lands in that field have been forced to operate on tide lands.

Today the Pan American Petroleum Company has been ordered to pay the State \$5 per barrel of oil produced on tide lands. The other side of this picture shows that the Pan American Petroleum Company with five wells yielding a total of 250 barrels a day, the Miller Oil Company with one well yielding 530 barrels a day, the Chandler-Ganfield Midway Oil Company with two wells putting out 60 barrels a day, the General Petroleum Corporation with two wells putting out 925 barrels a day and the Standard Oil Company with one well yielding 200 barrels a day, the grand total of daily production from these wells on Saturday being 3860 barrels a day.

Since the majority of these wells are within fifty feet of high tide and are offsetting lands upon which permits were sought it is reasonable to assume that a great deal of the oil now being obtained would have been State royalty oil. It is likewise a certainty that had the permits been issued as requested there would not be at least as many wells producing oil from tide lands as there are producing from fee lands, so it is a reasonable rate estimate that at this moment the State is losing royalty oil at the rate of 125 barrels a day.

Those who carried the matter to the Supreme Court for a test of the leasing law appear to be of the belief that a decision in the matter may be handed down when the Supreme Court meets in Los Angeles early in June, but even if a decision is given at that time the taxpayers are destined to lose an enormous amount of money through offset drilling, because the operating companies have apparently solved their water problem on fee lands and are drilling ahead steadily in many new wells.

There are three long lines of wells stretching ahead at Seacrest. The first row belongs to Pan American and Miller. The second row is the Standard Oil Company's string of four wells on the beach right of way, and these have already reached the producing zone.

The Espee No. 1 was completed yesterday at 2148 feet for 300 barrels a day, and the Espee No. 2, which was being given a production test last night at 3000 feet, is also producing.

The Espee No. 3 is standing idle at 3100 feet and the Espee No. 4 is drilling at 2500 feet. This string of wells is only 235 feet back from high tide line.

Beyond the Espee wells are other strings of derricks, all of which will be twisting drills into the oil sand within the next few weeks. Meanwhile the taxpayers are losing their 5 per cent royalty and patiently awaiting a decision of the Supreme Court regarding the constitutionality of the land leasing act.

The situation at Seacrest is in sharp contrast to that in Texas, where the State University has already received \$4,000,000 in oil royalties from tide lands which have been developed in the State during the past few years.

YUMA (Ariz.) May 13. (Exclusive)—Much activity has been known during the spring months to the noted Kofa district, on the northeast of Yuma. Twelve miles east of the old King of Arizona mine, the Engesser group has been bought from J. P. Notbush by J. L. Harper and D. B. Jones.

Water is to be developed by drilling with the expectation of then creating a ball mill. The ore in the Kofa district is reported to carry about 10 per cent gold.

At 300 feet of depth, in the Notbush-Engesser property, fifteen miles north of Yuma, a large body of new ore has been found, with assays of about 10 per cent lead and thirty-five ounces silver.

In the Castle Dome section, the Silver Spar Company has added a concentration unit to its mill, with a similar addition to the mill of the Home Leasing Company, R. L. Sun-Jerling, manager. Concentrates are shipped to El Paso.

Silver-lead ore is declared to carry up to 12 per cent of lead, and material and twenty-seven ounces silver has been shipped to Douglas by G. B. Adams of Dome. Shipments of lead are being made by Arthur R. Haack, who is operating the Lady Edith property. In the Ferris, Superintendent Sam Asche reports twelve inches of high-grade silver-lead ore at 275 feet of depth.

ALMOST FINISHED—Mrs. Grange: This is the end. I can live with you no longer. Mr. Grange: Yes, I guess it's all over but the shooting.—(Kansas City Star)

## GAS STRUCK IN BAILING OPERATIONS

Crew Working on Union Avenue Well of Pacific Eastern Surprised

BAKERSFIELD, May 13. (Exclusive)—While attempting to bring in the Union-avenue No. 3 well south of here, a gas pocket was struck during bailing operations, and oil, mud and water were hurled almost to the crown block.

According to authentic reports, officials of the Pacific Eastern Production Company, unsatisfied with the showing the well has made, ordered the crew to reverse the hole below the nine-inch casing thinking that the sands might be opened up. This work had been under way for several days.

The No. 3 hole is bailed below 4300 feet and the plug has been cemented at 4310 feet through the nine-inch pipe at 4264 feet. While attempts are being made to bring the well in, the company is preparing to build a third rig in the district, one location west and two locations south of the No. 1 well.

Calpet is preparing to bring in another well on the west front in the near future, officials reported. It is located on Sec. 34 31-34, and will be ready for a production test within the next few days.

The General Petroleum Corporation, which recently completed and shut in a well good for about 750 barrels a day on its Landa Glide lease in the northwest extension of the Foco Creek field, is preparing to start drilling its Glide No. 30.

## Local Group at Work in Noted Placer Section

Small blocks of ground sixteen feet square, covering Corral Flat Channel area near Molevina Hill in Calaveras county, worked by leasers in the early history of the district, returned about \$40,000 per acre in gold, it is declared, and the gravel on bedrock contained from \$1.75 to \$2 to the pan, according to a local correspondent.

Union Mines, Inc., of Los Angeles, owning 160 acres, covering a portion of the Corral Flat section, is to be virgin ground in its effort to make available the wealth in gold believed to exist in this ancient placer section.

A small shaft was sunk a 375-foot two-compartment working shaft, from the bottom of which a drift is now being run to get into the bedrock gold-bearing level.

This drift, it is stated by President H. A. Dunn, is now out of the hole and the water-saturated condition of its face is believed to be an indication of the near approach to the rich gravel deposits.

Some protests have been made to the commission against certain phases of the regulations, especially to that which restricts the daily production to 150,000 barrels. It is regarded that a larger allowable basis may be fixed in order that some of the suits with wells in which water has appeared may make their profits.

Every possible effort will be made by the oil and gas division of the Railroad Commission to conserve the gas which is now going to waste in the Winkler county field, it is stated. The recent estimate of J. Allen, production manager of the Royal Dutch-Shell interests, that 200,000,000 cubic feet of gas are escaping from wells in that field shows that prompt action is necessary.

Mr. Allen said that in his investigation of the Winkler county field he was astounded to find that a solid body of gas, above bed from its surface, was being lost through the well casing and the gas was being lost through the well casing and the gas was being lost through the well casing.

At the Corral Flat claim of company holdings, the cross-cut tunnel is being continued from the first cross-cut to a point where a parallel vein showing strongly on the surface.

ARTESIA (N. M.) May 13. (Exclusive)—Drilling operations in one of the most important fields in central New Mexico have ended. The Beardsley No. 2 of the Maljamar Oil and Gas Corporation on Sec. 17-32, encountered a flow of salt water at 4335 feet.

Workers are plugging back to the 3900-foot sand to shoot. The Beardsley No. 2, which was started eighteen months ago, has had many difficulties, and for the past four months has been able to make little or no progress because of fishing jobs.

TEST PLUGGED BACK FROM LOWER LEVEL—BUTTONWILLOW, May 13. (Exclusive)—The McAdams Trustee well on Sec. 24, 29-32, in the Buttonwillow district, drilled to 5885 feet, has been plugged back to 4555 feet. A test was made of the upper strata with nothing but water showing, according to field reports.

KIT CARSON GOT HIS AXLE GREASE FROM SEEPAGE OIL—CASPAR (Wyo.) May 13. (Exclusive)—That Kit Carson, famous frontiersman, was once engaged in the oil business, is a historic incident which recently came to light.

Relatives of Cy Iba, who came here over the Oregon Trail in 1851, assert that he joined with Jim Bridger and Kit Carson in collecting heavy oil from petroleum seepages just west of Caspar.

The three frontiersmen took the oil and mixed it with wheat flour, making a sticky paste which they sold to the plainsmen as axle-grease.

Mr. Iba later staked a group of claims at Salt Creek, and in 1889 the first oil production was obtained there by shallow drilling. The field has since produced 200,000,000 barrels of crude.

## MINE AREA DUE FOR REAL TEST

Booth Mining Gets Lease of Wahmonia Estate

Company Obligated to Spend \$25,000 on Property

Angelenos Take Over Claims in McCoy District

TONOPAH (Nev.) May 13. (Exclusive)—Entry of the Booth Mining Company into Wahmonia means that the new gold-rush camp will be prospected thoroughly, and its actual merits proved or discounted beyond shadow of a doubt.

The Booth company takes a two-year lease on the main locations of the Wahmonia Mines Company, and is obligated to spend \$25,000 on equipment and development. In return it will receive 100,000 shares of Wahmonia Mines stock, with an option on an additional 100,000 shares for \$50,000.

Installation of a hoist, compressor and drills starts at once, with the main shaft to be sunk 300 feet.

The Booth and Wahmonia mines companies are controlled by George Wingfield, but the Booth is an assessable corporation with its stockholders scattered throughout the country.

The McCoy group of eleven gold claims in the McCoy district, thirty miles south of Battle Mountain, have been taken under bond and lease by F. M. Lowell, H. W. Boyer and others of Los Angeles. A series of strong veins has been exposed, with values persistent and the deposits showing promise of continuing to considerable depth.

Boyer formerly operated at Goldfield and Lowell discovered the borax deposits near the Colorado River, which were later acquired by the West End Chemical Company.

Operations are to be immediately resumed by the Goldfield Quartz Mountain Mining Company on its holdings twelve miles east of Goldfield, according to A. L. Ballors of Los Angeles. A small mill was built last year. A good tonnage of profitable gold ore is said to be in sight.

FAST ANSWER—"Can you lend me \$5 quickly?" "No, nor slowly, either!"—(Pathfinder)

## TEST SOUTH DIP WELL SOON

Ventura Outpost Shows Symptoms of Opening Up Something New in State's Wonder District

Oil operators in Southern California are expecting, early this week, to witness the completion of a well which, if it comes up to expectations, will extend the proven area of the Ventura-avenue field a matter of 750 feet to the south.

The well in question is the M. K. T. Oil Company's Foster No. 1, which was started at a point one location south of the Petroleum Securities Company's Orton No. 3, only forty days ago, and is now standing cemented, and is expected to drill out tomorrow or next day.

Hole is down 4500 feet, the cement job having been done at 4575 feet. The gas pressure in the hole is reported as being quite heavy, but it is being successfully held down by drilling mud.

According to reports, the heavily saturated sand in this well was picked up at a point 535 feet higher than it was found in the Orton well, which bound it on the north.

This condition of affairs leads some of the geologists to suspect that the M. K. T. Oil Company has picked up the second sand in a new fold or perhaps an entirely new anticline lying south of and running parallel to the Ventura-avenue anticline.

Prospects for production from the well are considered as being so good that the company is erecting two 500-barrel storage tanks on the Foster lease and near by the well. Pipe line from the well to the tanks is being laid, and location is being graded for the next well—Foster No. 2—which is to be drilled one location east of the company's present project.

It was reported yesterday that arrangements have been made with the Standard Gasoline Company to take the casinghead gas from the well and extract the gasoline from it in the event that the well proved to be a producer when a test is made.

Reports from the field are to the effect that several operating companies in Los Angeles are negotiating with landowners for leases on tracts adjoining the Foster ranch on the south.

IN A QUANDARY—Absent-minded Naturalist: Now, let me think—have I been so foolish as to bring these clubs instead of my collecting equipment, or have I been idiotic enough to come here instead of going to the golf links?—(London Humorist)

## FIND REPORTED IN ENTERPRISE

Angeleno Operator Opens Up Rich Ore Ledge

Noted Old Trinity River Mine May Be Revived

Contract Filed for Purchase of Two Placers

SACRAMENTO, May 13. (Exclusive)—Discovery of a strong ledge of rich gold ore is reported from the Enterprise mine, located on the north fork of Trinity River, near Helena, and held under bond and option by E. F. Hekman of Los Angeles.

The new strike was made in a virgin section of the property and is said to show broad streaks of free-gold quartz. It is understood a cyanide plant and other equipment are to be added shortly to the mill.

The Enterprise has long been noted for its yield of rich ore and has produced about \$1,600,000 since its discovery in 1894.

The Mammoth Channel Mine and Pacific Investment companies have agreed to sell their principal placer holdings in the Magala district to George Rugert of Washington, D. C. for \$175,000, according to papers filed with the County Clerk of Yuba county. The arrangement calls for a cash payment of \$50,000, with payments completed by September, 1934.

The Table Mountain Gold Mining Company has been formed under the laws of Nevada to acquire and operate 430 acres of quartz and placer locations near Angels Camp. The property includes the noted Shumway mine, which is believed to have produced more than \$5,000,000.

Two quartz veins and extensive deposits of gravel have been opened up in the near vicinity of the Enterprise mine. The Table Mountain channel, credited with a production of approximately \$50,000,000, is believed to be a part of the holdings.

The Kingsbury group of five claims at Igou, northwest of Redding, has been taken under bond by John W. Fairbanks and associates of Los Angeles. Arrangements are being made for the installation of a flotation plant and mine machinery.

## Flood Damage at Four Aces Mine Repaired

George Swift, mine superintendent for the Four Aces Mining Company, reports that recent flood damage to track, flume, bridges and mill, amounting to over \$20,000, has been fully repaired, and that the ten-stamp mill at the mine is again in regular commission, treating 250 gold ore; the high grade, of which there is a goodly showing in the underground workings, is to be treated by barrel amalgamation.

In the new workings of the mine, Mr. Swift says, the veins from the old workings continue to show new ore development. Ore chutes are being prepared, and two skips are being installed for independent operation from the 100 and 180-foot levels. With these improvements made, and with the addition of new machinery, the company will begin breaking down the seasonally rich gold-bearing quartz for local reduction. Regular clean-ups of gold bullion will follow the resumption of milling operations, it is said.

Prospects for production from the well are considered as being so good that the company is erecting two 500-barrel storage tanks on the Foster lease and near by the well. Pipe line from the well to the tanks is being laid, and location is being graded for the next well—Foster No. 2—which is to be drilled one location east of the company's present project.

It was reported yesterday that arrangements have been made with the Standard Gasoline Company to take the casinghead gas from the well and extract the gasoline from it in the event that the well proved to be a producer when a test is made.

Reports from the field are to the effect that several operating companies in Los Angeles are negotiating with landowners for leases on tracts adjoining the Foster ranch on the south.

## REVIVAL FORECAST

Mexico Oil Industry Believed on Eve of New Activity

TAMPAICO (Mex.) May 13. (Exclusive)—Geologists and managers for various oil companies are predicting renewed activity in the Mexican oil industry for the near future; not alone in the old regions of Tamaulipas and Vera Cruz, but in new oil fields in the States of Coahuila, Chihuahua and Nuevo Leon.

J. A. Gilmore, prominent Mexico oil operator, recently returned from New York and Mexico City and is of the opinion that work will shortly be resumed in nearly all of the old camps by both the large foreign companies as well as native concerns.

Prospects for production from the well are considered as being so good that the company is erecting two 500-barrel storage tanks on the Foster lease and near by the well. Pipe line from the well to the tanks is being laid, and location is being graded for the next well—Foster No. 2—which is to be drilled one location east of the company's present project.

It was reported yesterday that arrangements have been made with the Standard Gasoline Company to take the casinghead gas from the well and extract the gasoline from it in the event that the well proved to be a producer when a test is made.

COMANCHE DRIFTS TO OLD SHOOT

Project from Kerrick Shaft Driven 700 Feet With 1000 Remaining

In the development of its mining domain on Blind Springs Hill, Mono county, the Comanche M. and R. Company of Los Angeles is driving a drift to the north from the 1000-foot level of its Kerrick shaft, to make connection with the Diana ore shoot and old-time Diana workings.

This drift, now out 700 feet, with 1000 feet more to go to reach its objective, has been run practically all the way on a vein of high-grade and milling ore. The Diana holdings of the company, according to President Charles A. Palmer, produced approximately \$1,000,000 during the early history of the mine, and was uncovered, and ore running not over \$75 in silver-gold to the ton, was shipped, leaving in the mine workings, and stored on the dumps, enormous tonnages of ore that is of commercial grade today, that can be marketed or milled on the ground.

Drifting north on the Kerrick vein from the Ross cross-cut tunnel, 4100 feet in length, the drift station is being cut 225 feet for the tunnel for the purpose of starting.

When about only 25 per cent of the extension of the Kerrick ledge to connect with the bottom of the Kerrick shaft, with but a few hundred feet to go to reach its objective. Upon completion of the work it is planned to begin regular ore shipments.

# Hawaiian Held for Attack on Woman Designer at Canyon Party

## BOTTLE TOSSER ROUTS GUESTS

Criticism of His Ukulele Music Blamed

House Wrecked in Melee, Deputies State

Threatened Her in Auto, Mrs. West Says

Enraged because guests at a party were said to have made uncomplimentary remarks reflecting upon his skill as a ukulele soloist, Sam Kala, 31 years of age, a Hawaiian, is in the County Jail on a charge of threatening to kill Mrs. Claire West, a costume designer employed at the Cecil B. De Mille studio. Kala is said to have knocked her down several times and fought off other guests who went to her rescue.

According to deputy sheriffs who were called to investigate, the party was given Saturday night at the home of Mrs. West in Tuna Canyon and Kala was employed as an entertainer.

RESISTS CRITICISM

After an all-night party, the deputies are informed, some of the guests began to grow weary of Kala's music and one of them intimated that he could strum as sweet, if not sweeter melodies, from the undersized guitar than Kala. He had heard "punker" music, he added, but couldn't remember when or where. This irritated the Hawaiian much, and when other guests claimed in with his critic, he became enraged and demanded an instant settlement for his services. Mrs. West left the room, the deputy sheriffs say, and was followed upstairs by the enraged entertainer with insistent demands for this money and an apology. When they reached a bedroom, he struck her, according to Mrs. West, knocking her down several times as soon as she regained her feet.

Men guests below, hearing the commotion and her screams, attempted to subdue her assailant, but he held them at bay by throwing bottles at their heads as they appeared. The house was almost wrecked by the fight, the officers state.

SAYS HE TOOK WHEEL

Finally the victim talked Kala into a calmer state of mind and persuaded him to leave, agreeing to drive him into the city in her own car. Hardly had they started, she said, when the Hawaiian took the wheel and reminded her that it would be an easy thing to drive over a cliff and thus make her death appear accidental. He also drew a long two-pronged meat-fork from his pocket, Mrs. West said, and told her he was going to kill her and throw her body into the sea. The journey to the city, however, was completed without further injury to the woman.

Deputies from the Sheriff's office say Mrs. West is expected to sign a formal complaint against her asserted attacker this morning.

water rates or a city-wide bond issue to pay off the damage claims.

### AWARDS MADE FOR LIVES LOST IN FLOOD

Two more awards for loss of life in the St. Francis Dam disaster were announced yesterday by the State Industrial Accident Commission. One is for the death of Lyman W. Curtis, who was drowned with two of his children when he rushed into the flood waters to save them. The other is in the case of Basil Bros, 23-year-old operator at the Municipal Water and Power Bureau power house below the dam.

Those remaining of the Curtis family are Mrs. Lillian L. Curtis, the widow, and a son older than the two children who were drowned. They will receive \$5000, which the city must pay.

The members of the Curtis family were asleep in their house in the San Francisco Canyon when the dam broke. Curtis, a mechanic at the city power house, succeeding in getting his son and wife onto high ground and then returned for his two daughters, 5 and 6 years of age, but both he and the girls were swept away in the flood.

The award in the Bros case amounts to \$1500. It is in favor of Mr. and Mrs. Earl F. Bros, his partner, and a minor brother, who, the testimony showed, were receiving \$500 annually from him toward their support. The law provides that the death benefit under the Workmen's Compensation Act in cases of partial dependency shall be three times the amount devoted to the deceased annually for the support of the partial dependents. This award also is against the city.

## SPEAKING FILMS TO BE FEATURED

Warners to Use Vitaphone in All Productions

Studio Outlay for Season Will be \$12,000,000

Specials Will be Made for Roadshow Release

Production of speaking-films for the first time will take chief position in a film company's plans, it was revealed yesterday by Jack L. Warner, chief production executive of Warner Brothers, on receipt of the production schedule for 1934 as announced at the company's sales convention just ended in New York.

Eighteen feature pictures and a number of Vitaphone roadshow specials comprise the production program, for which the Warners will spend \$12,000,000 this season, Warner stated. All pictures will be made at the two studios operated by the company in Hollywood. Every film play produced this season will have some phase of Vitaphone sound, he said, while certain productions will be presented entirely in spoken dialogue.

### PLAYERS ON LIST

Among the players under contract to and appearing in the new Warner program are Al Jolson, Dolores Costello, Monte Blue, Irene Rich, May McAvoy, Louise Fazenda, Conrad Nagel, Buster Collier, Myrna Loy, Helene Costello, Andrew Ferris, William Russell and Antonio Moreno.

Outstanding in the plans are the Vitaphone specials to be made for roadshow release. Because of the success of the first of these, and the popularity of each succeeding talking film, Warner said the company intends to make several more spoken film specials, some of which will be entirely in spoken dialogue. According to Warner this is a record for a single season of roadshow production.

### NEW VEHICLES

Among these Vitaphone productions will be another Jolson play, a Fanny Brice special starring Dolores Costello with George O'Brien, a New York musical hit purchased for sound film reproduction, an English stage success by Edgar Wallace, and two additional starring vehicles for Dolores Costello.

All activity will be supervised by J. L. Warner and his associate executive, Darryl Zanuck. The company has eighteen directors under contract, including Bryan Foy, who is in charge of Vitaphone short-subject filming. The others are Michael Curtiz, Roy Del Ruth, Lloyd Bacon, Howard Bretherton, Archie Mayo, John Adolf and Ray Enright. Anthony Colowery is chief of the scenario department, which includes E. T. Lowe, Jr., Graham Baker, Harvey Gates, Robert Lord, Louis Silvers and conductor of Vitaphone musical arrangements.

## He Still Knows How to Shake an Ankle

What Does Difference of Few Generations Make? Evelyn Russell and P. J. Callahan, both members of great Harnett family, execute dance steps at reunion.

## LARGEST FAMILY GATHERS

Almost 400 Descendants of Early Day Californians Hold Mother's Day Reunion at Park

The largest family in America—and, possibly, the world—had the largest day in its history yesterday when nearly 400 descendants of John Harnett held a reunion in Griffith Park. Not only that, but every one was born in California, and most of them in Los Angeles county.

It was the first time in seven years that members of the family have gathered, and there were many new faces since the last previous meeting. The youngest was Richard William Taylor, a hale and hearty young man of fifteen days, who came, accompanied by his mother, Mrs. Jack Taylor. Mrs. Taylor, incidentally, was the youngest mother present, while the distinction of being the oldest went to Mrs. Kate Manning. She is 76 years of age, but doesn't look much more than two-thirds of it.

From time to time other families have risen up in their wrath to dispute the family championship of Harnett tribe as to round numbers, but this point, according to D. Joseph Coyne, has been settled once and for all by the simple process of counting noses. The number now exceeds 400 and is growing rapidly each year.

John Harnett came to America from County Kerry, Ireland, in 1873, and he was accompanied by eight daughters. All were married shortly after the family took up its abode in California and from them has sprung up the multitudinous house of Harnett.

The oldest man present was P. J. Callahan, 85 who proved that age is not a mere matter of years by executing a few steps of an Irish reel with Miss Evelyn Russell, a great-granddaughter of Harnett. The octogenarian confessed that he waved a meager ankle some sixty years ago, but his ability in this line, even today, is not a thing to be sniffed at.

The feature of the day was a mammoth barbecue. This was followed by games, athletic contests, dancing and reminiscing by the older folk. A large part of the afternoon was taken up by news reel and newspaper photographers. Another reunion will be held next Mother's Day.

## BARBECUE KING FIGHTS FOR LIFE

(Continued from First Page)

The owners sold fifty acres of it to the county at \$50 an acre for the site of the County Hospital. They had bought their holdings for 75 cents an acre some years before. Joe and Mrs. Romero have had fourteen children. Only four of them are living. One of them, Joe, Jr., was killed in line of duty while a patrolman on the Los Angeles police force. Another, Edmund, now is a detective on the force. There are nine grandchildren, but Joe says that he thinks the barbecue convicts as his children also. They are numbered by the hundreds of thousands.

### SILK UNDES HOLD FOUR

Two Couples Arrested at Chico Over Fresno Robbery

Accused of having robbed a Fresno dry-goods store of several hundred dollars' worth of silk underwear, Mr. and Mrs. L. D. Hoover and Mr. and Mrs. H. G. Smith, said to be from Los Angeles, were arrested yesterday at Chico, dispatches state.

Officers say some of the stolen articles were found in their possession. An officer has been sent from Fresno to attempt to identify the goods.

Beginning at 5:30 a.m. by delivering morning newspapers, and working at odd jobs as well as studying until 11 p.m., Miss Gertrude Anderson of Guthrie, Okla., is working her way through the University of Oklahoma so that she may become a lawyer.

T. H. Crumble, who recently died in Leicester, Eng., was secretary of the Leicester football club for thirty years, during which time he never missed a club match at home or away.

## BERMAN OPENS DEFENSE TODAY

Julian Suspect to Deny Part in Overissus

Expected to Blame Clerks for Bad Stock

Trial May Go to Jury Last of This Week

Opening arguments to the jury in behalf of Jacob Berman, alias Jack Bennett, will be started this morning by Attorney John F. Murphy before Superior Judge Doran.

where seven men are on trial charged with conspiring to overissue a \$10 million of dollars' worth of spurious Julian Petroleum Corporation stock.

Bennett, as have the other remaining seven defendants, will deny that he had anything to do with the overissue and that stock brokers, over whom he will assert that he had no control, handled all details of flooding the market with the spurious stock without his knowledge. It is expected that Bennett also will contend that clerks of the transfer office were responsible for the overissue.

When S. C. Lewis, indicted president of the company, concluded his argument to the jury Friday afternoon, he contended that stock-transfer clerks were responsible for the overissue, abetted and aided by Bennett and outside brokers, according to his charges.

According to court attaches, the trial will probably be given to the jury the last of this week by Judge Doran.

## TRUNK NEW AID IN DEATH QUIZ

Receipts Yields Checks of  
Wife to Randolph

Dealings Before Marriage  
Indicated by Dates

Evidence May Be Presented  
to Grand Jury Today

Investigators, digging into the past of J. W. Randolph, now held in the County Jail on the charge of murdering his wealthy wife, yesterday uncovered further evidence which will be placed before the grand jury today, or else before the Municipal Court at the preliminary hearing Thursday in the event it is determined not to ask for an indictment.

Investigator Pirotte of the District Attorney's office yesterday declared he has recovered canceled checks totaling \$10,000, signed by Mrs. Randolph prior to her marriage to the prisoner and made out to him. Pirotte stated this is important in the case of the murder made by Randolph that he had had no business dealings with the woman, then Mrs. May Winnet, before their marriage.

### FIND MADE IN TRUNK

The canceled checks were located in Mrs. Randolph's trunk, Pirotte said. One for \$7000 was made out in February, 1927, several months before the marriage, and is endorsed by Randolph. Pirotte also is seeking the disposition of \$6000, received by Mrs. Randolph from the cashing of a bond about the time of the wedding.

Statements from a Mr. and Mrs. Henry, friends of Mrs. Randolph, and the maid, Clara Pepper, concerning Randolph's actions during his wife's fatal illness were taken yesterday by Pirotte. The Henrys stated they were unable to see Mrs. Randolph the last few days, and urged the husband to engage Dr. Duncan, who at last did attend Mrs. Randolph. Randolph, according to this statement, said he had been administering medical treatment to his wife. The maid's statement corroborated this. Mrs. Randolph died February 1 last. Recently her body was exhumed and showed traces of sufficient poison to cause her death, according to autopsy reports.

### INDICTMENT IN NORTH

While the investigation of Randolph's activities, admitted incomplete, continued it was learned that he was indicted by the Federal grand jury of San Francisco February 21 on a charge of conspiracy to use the mails in a scheme to defraud.

Four men are named with Randolph in what is termed a \$100,000 stock-fraud deal in connection with the operations of Cromwell Simon & Co. of San Francisco in 1923. Members of the company are accused of having accepted money from investors for stock purchases which were never made.

Harry M. Kassner, Cromwell Simon, Samuel Robinson and Orton E. Goodwin are the men named in the thirty-eight count indictment with Randolph. All are free on \$5000 bail each.

H. H. Harris, who is attorney for Randolph, filed a demurrer on behalf of his client on March 26. Harris represents Randolph on the murder charge, and asserts he is ready so far as a defense to the charge is concerned.

### ULTERIOR MOTIVES CHARGED IN RANDOLPH'S ARREST

SAN FRANCISCO, May 13. (Continued)—Declaring that ulterior motives rather than the promotion of justice prompted the taking into custody of J. W. Randolph, Los Angeles broker, suspected of poisoning his wife, H. H. Harris, Los Angeles attorney, arrived in San Francisco today in quest of information to support his contention.

Harris, asserting that Randolph was the victim of a "legalized kidnapping plot" in Los Angeles on the 8th inst., said he intends to demand a grand jury investigation of the manner in which his client was taken into custody.

"The entire case against Randolph," he asserted, "immers down to a fight by Mrs. Randolph's daughter to deprive him of one-half of the \$200,000 estate left by Mrs. Randolph."

"The autopsy surgeon says he discovered arsenic in the body. We will prove that the embalming fluid used when the body was placed in the crypt two months before it was exhumed was loaded with arsenic. Dr. Will O. Duncan, who signed the death certificate, will testify that the woman died of gall stones and peritonitis."

Randolph was indicted by a Federal grand jury in San Francisco February 11 last, on a charge of conspiracy to use the mails to defraud in connection with the operations of Cromwell, Simon & Co., here in 1923. Harris said he will appear in the United States District Court tomorrow to ask for a bill of particulars in connection with the indictment.

## EDUCATOR OF MEXICO DUE HERE

Jose Vasconcelos Will Be  
Spanish Colony Guest at  
Many Receptions

Jose Vasconcelos, widely-known educator of Mexico and one of the outstanding intellectual leaders in Latin America, will arrive here tomorrow, and be the honored guest at a number of receptions and meetings arranged by Spanish-speaking residents, according to announcement made yesterday.

Dr. Vasconcelos has recently returned from a tour of Europe, where he was awarded degrees by the universities of France and Spain for his exceptional educational achievements in Mexico and South America, and is coming to Los Angeles direct from New York, where his lectures and writings on Latin Americans were highly praised.

A former Secretary of Education in the Cabinet of President Obregon, the distinguished Mexican educator gained international recognition for his work in the organization and rebuilding of the school system of Mexico, as well as his assistance to educational institutions of South America.

Fire Follows Blast at Rear  
of Woman's Home

Place Raided Recently and  
Proprietor Sought

Trapped in an underground distillery, when a 200-gallon still exploded, setting fire to the plant, James Talmanteri, 30 years of age, was burned fatally yesterday morning.

The illicit liquor-manufacturing plant, according to police, was located at the rear of 1416 East Twenty-seventh street. A small shed had been subleased by Mrs. Elizabeth Crawford, resident in the dwelling in front, to a man whose name was not given out by police. Under the shed a large concrete basement had been constructed, police reported. In this the still, fifty barrels of mash, and seventy-five gallons of liquor.

Shortly after dawn yesterday the neighborhood was harried by a heavy muffled explosion. Smoke issued from the shed and the fire department was called.

The Illinois Engine Company No. 14, first into the smoke-filled structure, discovered a trap door in the floor, part of which had been cut out by the force of the explosion. Feigley heard moaning in the basement and braving the dense smoke and the changing light from the explosion, he crawled through. A few moments later he reappeared bearing the severely burned form of Talmanteri. The latter died before medical aid could reach him. The body was taken to the County Morgue.

Mrs. Crawford, according to Officer Henry, stated that Talmanteri was arrested while tending the still. The room was underneath the shed floor which was covered with rabbit hutch and entrance could only be gained through a trapdoor.

Three months ago the place was raided by police and George C. Talmanteri was arrested while tending the still. The room was underneath the shed floor which was covered with rabbit hutch and entrance could only be gained through a trapdoor.

Some of the outstanding pieces are the best of Roosevelt now in the Los Angeles Roosevelt High School, the bust of Rufus B. von Kleinsmid, president of the University of Southern California and many classics such as "Diana," "Medicine," "Elisabeth" and "Crepuscule."

World-known critics expressing their opinion of the work of Swartz declare that his work is animated by a fluent, ever-present sense of beauty, combined with the undercurrent of aloofness and distinction which is peculiar to the medium of sculpture as a fine art. A fellow artist said that in Swartz's subjects he was moved by the unobtrusive skill with which the relation of contours and lines is established.

Mr. Swartz recently returned to Los Angeles following a two-year tour of the world during which time he studied in Germany, France and other world art centers.

## OLYMPIAD TRYOUTS TO DRAW MANY

Southwest Finals June 16  
Duplicate Features of  
International Games

A foretaste of what Los Angeles and California may expect in 1932 when the International Olympic Games are held in this State will be afforded to the Southwest Olympic finals and entertainment program at the Coliseum on June 16. It was stated yesterday by Robert S. Weaver, president of the Southwest Olympic Games Committee.

The Coliseum carnival will have many features duplicating the international games. Carrier pigeons, emblems of peace, will be released as the contests in the arena open. Parade of nations in which athletes of the Southwest will carry the flags of the forty-six nations participating in the Olympiad will be another feature taken from the international games.

More world-renowned athletes will compete in the Southwest finals here than will be in any other sectional tryout in the United States. It is expected that a number of new records will be made.

European papers report crowds of visitors from all parts of the world gathering for the Olympic Games there. Southwest Olympic officials predict that in 1932 California will witness an influx of many hundreds of thousands.

## Stutsman Now Candidate for Superior Bench

Judge Stutsman, former presiding judge of the Municipal Court, and now sitting in Superior Department 48 by appointment of the Judicial Council, has consented to run for the Superior Court, Division 4, according to the announcement of his organization committee, Perry W. Weidner, Joseph Scott, Dana Weller, and H. L. Carnahan. Judge Stutsman is the present occupant of Division 4.

Judge Stutsman was born in Burlington, Iowa, in 1871, and graduated from the University of Iowa. After twelve years of law practice with his father, A. H. Stutsman, former judge of the Iowa District Court, he came to Los Angeles in 1905 and was admitted to practice. With the creation of the municipal courts in 1926, he gave up his law practice to accept an appointment to the new courts. He was elected without opposition at the next general election. He resides at 1411 Carson avenue, Hollywood, has been very active in the Hollywood Masonic clubs.

William Stuart and G. W. Richert were awarded a judgment in three different law suits for personal injuries brought against them by Rosa Anderson, A. Fogle and Nettie Young.

The actions followed an automobile collision that occurred on October 23, 1925 on Huntington Drive in San Marino. One of the cars was driven by Charles Frocht, employed by the defendants. Damages were asked on the grounds that the accident was caused by the negligence of the plaintiffs held his employers were liable.

Stuart and Richert asserted the car in which the plaintiffs were riding was being driven negligently at the time of the accident.

GLADIATORIAL COMBAT  
SHOCKS HOTEL GUESTS

A fist fight that started on the third floor of a hotel at 6465 Sunset Boulevard ended in the lobby yesterday morning, when the combatants, both nude, were arrested on a charge of drunkenness. The two men gave the names of A. T. Houff, 23 years of age, and William E. Barrett, 26. Police were unable to learn the cause of the fight.

and San Fernando Work  
in Major Traffic Plan

Completion of three important major traffic paving projects has been announced by R. H. Hook, inspector of public works. The projects are located in the San Fernando Valley, the East Side Industrial section, and the western residential area.

The paving of Sepulveda Boulevard, from Olive avenue to Vanowine, to Pico Boulevard, is completed, offering a wide highway for motorists. The Sepulveda Boulevard project is included in the major traffic street plan, the Traffic Commission having recommended that city aid be given to the portion between Wilshire Boulevard and Ventura Boulevard. Plans for tunnel under Mulholland Highway now are being drawn.

The second project is the paving of the approaches to the underpass at Downey Road and the Union Pacific tracks. The grades separation at this point recently was completed.

The third project is the paving of the Fourth and Rita streets improvement district in the San Fernando Valley, involving a large area and a cost of \$208,000.

## Producer to Aid in Lindsey Film

Charles R. Rogers, producer, representing the interests of Asher, Small & Rogers, arrived from New York yesterday to co-operate with Sam Sax, who will be in charge of the filming of Ben E. Lindsey's "Companionate Marriage." in which Betty Bronson and Alec B. Francis have been cast.

Rogers attended the First National sales convention in Chicago, pledging the delivery of his series of Ken Maynard vehicles, which he releases through this company. He also will make announcement soon of new production plans apart from his Asher, Small & Rogers affiliation.

TEST FOR POSTOFFICE  
JOBS SET FOR JUNE

Announcement was made yesterday by the United States Board of Civil Service Examiners, that an examination will be held by the examiners some time after June 1 for the positions of postoffice clerk and postoffice carrier.

Applications for the positions will be received until June 1, and male applicants should indicate whether they can operate a car. While the examination is open to male and female, it was stated that it is not the policy of the postmaster to appoint women.

## CUPID SNATCHES HER FROM FILM CAREER

Underground Distillery and  
Shed Above Wrecked

Fire Follows Blast at Rear  
of Woman's Home

Place Raided Recently and  
Proprietor Sought

Trapped in an underground distillery, when a 200-gallon still exploded, setting fire to the plant, James Talmanteri, 30 years of age, was burned fatally yesterday morning.

The illicit liquor-manufacturing plant, according to police, was located at the rear of 1416 East Twenty-seventh street. A small shed had been subleased by Mrs. Elizabeth Crawford, resident in the dwelling in front, to a man whose name was not given out by police. Under the shed a large concrete basement had been constructed, police reported. In this the still, fifty barrels of mash, and seventy-five gallons of liquor.

Shortly after dawn yesterday the neighborhood was harried by a heavy muffled explosion. Smoke issued from the shed and the fire department was called.

The Illinois Engine Company No. 14, first into the smoke-filled structure, discovered a trap door in the floor, part of which had been cut out by the force of the explosion. Feigley heard moaning in the basement and braving the dense smoke and the changing light from the explosion, he crawled through. A few moments later he reappeared bearing the severely burned form of Talmanteri. The latter died before medical aid could reach him. The body was taken to the County Morgue.

Mrs. Crawford, according to Officer Henry, stated that Talmanteri was arrested while tending the still. The room was underneath the shed floor which was covered with rabbit hutch and entrance could only be gained through a trapdoor.

Three months ago the place was raided by police and George C. Talmanteri was arrested while tending the still. The room was underneath the shed floor which was covered with rabbit hutch and entrance could only be gained through a trapdoor.

Some of the outstanding pieces are the best of Roosevelt now in the Los Angeles Roosevelt High School, the bust of Rufus B. von Kleinsmid, president of the University of Southern California and many classics such as "Diana," "Medicine," "Elisabeth" and "Crepuscule."

World-known critics expressing their opinion of the work of Swartz declare that his work is animated by a fluent, ever-present sense of beauty, combined with the undercurrent of aloofness and distinction which is peculiar to the medium of sculpture as a fine art. A fellow artist said that in Swartz's subjects he was moved by the unobtrusive skill with which the relation of contours and lines is established.

Mr. Swartz recently returned to Los Angeles following a two-year tour of the world during which time he studied in Germany, France and other world art centers.

## Program Ready for Meeting of Bank Chapters

Yosemite Park has been selected for the joint meeting of the San Francisco and Los Angeles sections of the American Institute of Mining and Metallurgical Engineers. The meeting includes the Woman's Auxiliary, numbering many prominent San Francisco and Los Angeles women.

The ladies will preside the first evening, the 25th inst., under the direction of Mrs. J. F. Mitchell, Roberts of San Francisco and Julian Boyd of Southern California. The evening of the 26th inst. the speakers will be President George B. Smith, Secretary H. Foster Babin, Ernest A. Hornum, chairman of the San Francisco section, and John E. Hodge, chairman of the Southern California section.

Technical papers are tabo and three days of fun and frolic will be the program. The bringing together of a large group of prominent mining engineers on the Coast was proven decidedly worth while, especially as many are not able to attend the annual New York meeting held each winter, it is asserted.

## Henry Divorce Trial Will be Resumed Today

Taking of testimony in the divorce case of Albert Preston Henry against Mrs. Gertrude Virginia Henry will be resumed before Judge Valentine at 10 a.m. today.

Today begins the fourth week of the hearing, all of the time spent up to the present in taking evidence of the husband who is accusing his wife of infidelity, but who has named no correspondents in the case.

A score or more of witnesses have been heard, principally private detectives employed by the husband, who spent months in trailing the movements, day and night, of Mrs. Henry.

One of the principal charges laid at her door is that she was among the guests at wild parties at various places.

Interest is now centered in the wife's answer to the charges when she takes the witness stand, which will probably be sometime during the latter part of this week.

## B'NAI B'RITH PICNIC POSTPONED TO JUNE

Originally scheduled for the 27th inst., in Orange County Park, the B'nei B'rith picnic of Southern California lodges has been postponed until June 10 next, and the locale changed to Lure Park, on Mission Road. More than 2000 are expected to attend, from Los Angeles, Anaheim, San Diego, Pasadena, Santa Monica, Pasadena and Long Beach. An orchestra has been engaged to play throughout the day, athletic events occupying the early part of the afternoon, with an exhibition by trained animals to follow. After 2 p.m., the visitors will be permitted to see and feed animals in the Seig Zoo.

## COOK CLASS WILL HOLD TWO MEETS

Demonstration Room of  
Southwest Building to See  
Well-Filled Week

The coming week's program in the Demonstration room of the Southwest Building embraces events for the afternoons of Tuesday to Friday, inclusive. Access to the hall is by elevators direct to the third floor of the building, 130 South Broadway.

The Times' free cooking school, with Mrs. Mabelle (Chad) Wyman in charge, will meet tomorrow and Friday at 2 p.m. In each class there is a different menu offered and all dishes are made in the modern kitchen by Mrs. Wyman, and fully explained. Recipes of the dishes given are free to all who attend. The daily menu used by Mrs. Wyman is printed in The Times the morning of the classes.

On Wednesday Mrs. Irwin Kellogg talks at 1:30 p.m. on the art of breathing, and at 2 p.m. Rose Waterman Harris demonstrates beauty methods by living models.

Thursday at 2 p.m. Dr. Philip M. Lovell, head of the "Care of the Body" department of The Times Sunday Magazine, delivers a lecture on the way to be healthy. These are open to all, free, and Dr. Lovell will answer written questions. Great interest is manifested in these plain, sensible talks, illustrated with blackboard explanations.

## AN OPEN LETTER FROM D. W. GRIFFITH

We wish to thank the people of Los Angeles and California for their friendly support. Here we have had our most desperate struggle, our dreams, AND OUR SWEETEST AWARDS:

We thank Mr. Edwin Schallert for his article in The Times: "It overthrows certain conventions of the film theatre to a degree amazing... 'Drums of Love' is a work of beauty... Two things—the direction is marvelously appealing—and the love scenes and the acting of the individuals—THIS GOES FARTHER THAN MERE ACTING—GRIFFITH IS STILL A VICTOR... and the picture is radiant and rare with that lyrical spell which is his creation for the film... SOMETHING ONLY GRIFFITH CAN EVOKE. An ideal movie—and an ovation for the director."

We wish to thank you, Miss Louella Parsons, for writing in The Examiner: "ANOTHER FINE GRIFFITH TRIUMPH, with love scenes and action is the new picture 'Drums of Love'... Scenes fraught with dramatic interest are worked out as only Griffith knows how... The battle scenes are reminiscent of 'The Birth of a Nation,' all showing the masterful touch."

We thank Miss Eleanor Barnes, for saying in The News: "The delicate treatment of the TORRID LOVE SCENES and the powerful battle scenes awaken AN OUTBURST OF APPLAUSE. 'Drums of Love' PROVES A TRIUMPH FOR D. W. Griffith... He still the master... And Lionel Barrymore does marvelous acting."

We thank Mr. Harrison Carroll for his opinion in The Herald: "Griffith has created a picture which burns with the clear flame of human... THE OLD MASTER HAS NOT LOST HIS FIRE... these are scenes in 'Drums of Love' that will open the eyes of the most hardened of our directors."

We thank Mr. Monroe Lathrop for his praise in The Express: "Griffith's oft-proved dramatic feeling, his skill of expression and power in handling large numbers are displayed. 'DRUMS OF LOVE' IS GRIFITH AT HIS BEST AS BOTH POET AND MASTER. Barrymore's delineation of aroused emotions is terrific."

We thank Mr. Gilbert Brown, who says in The Record: "THERE IS REAL BEAUTY AND DIGNITY IN GRIFFITH'S STORY... 'Drums of Love' is a dramatic love poem."

We thank Hugo Riesenfeld, Managing Director of the United Artists Theatre, for his splendid musical accompaniment, his appropriate stage and surrounding program.

(Signed) D. W. Griffith

**PEGGY DAZZLES IN RAIMENT**  
**at Orpheum; Howard and**  
**Benny Score Big Hits**

BY EDWIN SCHALLERT

Floral tokens in huge abundance betokened the popularity of Peggy Hamilton last night at the Orpheum. A special tribute was proffered to her upon the presentation of "A Revue of Summer Fashion," the first that she has staged as part of a vaudeville entertainment, and an event on the current Orpheum program.

Miss Hamilton's revue offers a variety of sports costumes, bathing costumes, afternoon frocks, evening gowns and last, but not least, from the viewpoint of the masculine portion of the audience as well as the feminine (ahem!) negligees.

Peggy herself appeared in a series of radiant costume creations, designed by Howard Greer, manifesting arterial grace in the display of these dazling modes. They in-

**"Skyscraper" Establishes**  
**Boyd and Hale as Newest**  
**Costars**

BY MARQUIS BUSBY

Who was the fellow that said comedy-team films were definitely things of the past?

They aren't. By no means, and many other quaint negative remarks.

"Skyscraper," a De Mille production, showing at the Metropolitan this week, features as lively a pair of fun-makers as have flashed across the screen in a blue moon. Incidentally it is one of the best comedies of the season.

William Boyd and Alan Hale, the two stellar performers, play with considerable zest. This picture marks the beginning of their co-starring series. "Skyscraper" is a pretty imposing edifice. Following pictures will have to be lofty indeed to top it.

Boyd contributes the romance and the good looks to the team, and Hale keeps everybody in continued good humor.

## BILL BOWS TO MOTHER'S DAY

A singular and effective tribute offered on the most appropriate day of the entire year, was the condensed version of Lucille La Verne's international success, "Sun-Up," the sketch headlined the bill that opened yesterday afternoon at the Hillstreet Theater.

A story of the South Carolina hills of the Widow Gadge and her primitive hatred of the law that claimed her husband, and later her son, is too well known by this time to bear recounting.

It's a bare sketch of the original on the stage of the Hillstreet this week, however, a good piece of the same story that graced the Mason and Egan Theater last year. It has been cut mercilessly . . . some of the best lines have been lost, but not even this fact dulls the brilliance of Miss La Verne's performance as the widowed mother whose prejudice fades in the love of her son.

Yesterday's audience proved the

Adhering especially to this formula were Jimmie Conlin and Myrtle Glass in "Morning, Noon and Night." At the end of the sketch no one knew what it was all about.

Corinne Tilton, in a cycle of Original Song Studies, was another comedian who flared.

"Just Good and Mappy" specifications of the bill Mr. characterizations proved amusing.

The Misses Dorothy and Rosetta Ryan in "Just We," a program of close-harmony selections, and Danny Small, a dark-complexioned youth with good voice and some mappy foot work, completed the bill.

Even this didn't end the fan, however, for one kept right on laughing through "Chinatown Charlie," Johnny Hines's latest starring vehicle.

"Chinatown Charlie" is the story of a youth who conducts a tour through the Bowery, Chinatown and whereof, and finally gets into difficulties.

he is tired of the romance instead of telling her the truth. His pal tells him about his crippled legs until Boyd "gets well" for no other reason than to fight him again.

There are many amusing sequences—the cleverness of which being a trip to an amusement resort. Hales loses his gold tooth in the revolving barrel and won't come out until it is found.

Sue Carol is the pretty and very picturesque chorus girl friend of Boyd. "Skegner" reveals a marked grasp of Miss Carol's acting ability. Alberta Vaughn is excellent as the hard-boiled friend. Wesley Ryan contributes a moment of pathos who tries to swing across the building, and falls to his death.

Howard Higgin should be accredited with good piece of direction. The screen story was written by Tay Garnett. I've forgotten the names of the five writers. They are unusually good.

"Havana" is one of the best of the Public stage revues. It presents a number of clever entertainers vacationing in that well-known oasis of the southern seas. GEORGE PERKINS

## TRUNK NEW AID IN DEATH QUIZ

Receipts Yields Checks of Wife to Randolph

Dealings Before Marriage Indicated by Dates

Evidence May Be Presented to Grand Jury Today

Investigator, digging into the past of J. W. Randolph, now held in the County Jail on the charge of murdering his wealthy wife, yesterday uncovered further evidence which will be placed before the grand jury today, or else before the Municipal Court at the preliminary hearing Thursday in the event it is determined not to ask for an indictment.

Investigator Pierre of the District Attorney's office yesterday declared he has recovered canceled checks totaling \$10,000, signed by Mrs. Randolph prior to her marriage to the prisoner and made out to him. Pierre stated this is important in the face of statements made by Randolph that he had no business dealings with the woman, then Mrs. May Winnet, before their marriage.

### FIND MADE IN TRUNK

The canceled checks were located in Mrs. Randolph's trunk, Pierre said. One for \$7000 was made out in February, 1927, several months before the marriage, and is endorsed by Randolph. Pierre also is seeking the disposition of \$9000, received by Mrs. Randolph from the cashing of a bond about the time of the wedding.

Statements from a Mr. and Mrs. Henry, friends of Mrs. Randolph, and the maid, Clara Pepper, concerning Randolph's actions during his wife's fatal illness were taken yesterday by Pierre. The Henrys stated they were unable to see Mrs. Randolph the last few days, and urged the husband to engage Dr. Duncan, who at last did attend Mrs. Randolph. Randolph, according to this statement, said he had been administering medical treatment to his wife. The maid's statement corroborated this. Mrs. Randolph died February 2, last. Recently her body was exhumed and traces of sufficient poison to cause her death, according to autopsy surgeons.

### INDICTMENT IN NORTH

While the investigation of Randolph's activities, admittedly incomplete, continued, it was learned that he was indicted by the Federal grand jury of San Francisco February 21 on a charge of conspiracy to use the mails in a scheme to defraud.

Four men are named with Randolph in what is termed a \$100,000 stock-fraud deal in connection with the operations of Crownwell Simon & Co. of San Francisco in 1923. Members of the company are accused of having accepted money from investors for stock purchases which were never made.

Harry M. Kasmir, Crownwell Simon, Samuel Robinson and Orton E. Goodwin are the men named in the thirty-eight-count indictment with Randolph. All are free on \$1000 bail each.

H. H. Harris, who is attorney for Randolph, filed a demurrer on behalf of his client March 28. Harris represents Randolph on the murder charge, and asserts he is ready so far as a defense to the charge is concerned.

### ULTRIOR MOTIVES CHARGED IN RANDOLPH'S ARREST

SAN FRANCISCO, May 13. (U. P.)—Declaring that ulterior motives rather than the promotion of justice prompted the taking into custody of J. W. Randolph, Los Angeles broker, suspected of poisoning his wife, H. H. Harris, Los Angeles attorney, arrived in San Francisco today in quest of information to support his contention.

Harris, asserting that Randolph was the victim of a "deliberate kidnapping plot" in Los Angeles on the 6th inst., said he intends to demand a grand jury investigation of the manner in which his client was taken into custody.

"The entire case against Randolph," he asserted, "slummers down to a fight by Mrs. Randolph's daughter to deprive him of one-half of the \$200,000 estate left by Mrs. Randolph."

"The autopsy surgeon says he discovered arsenic in the body. We will prove that the embalming fluid used when the body was placed in the crypt two months before it was exhumed was laced with arsenic. Dr. Will C. Duncan, who signed the death certificate, will testify that the woman died of gall stones and peritonitis."

Randolph was indicted by a Federal grand jury in San Francisco February 11, last, on a charge of conspiracy to use the mails to defraud in connection with the operations of Crownwell, Simon & Co. Here in 1923, Harris said he will appear in the United States District Court tomorrow to ask for a bill of particulars in connection with the indictment.

## EDUCATOR OF MEXICO DUE HERE

Jose Vasconcelos Will Be Spanish Colony Guest at Many Receptions

Jose Vasconcelos, widely-known educator of Mexico and one of the outstanding intellectual leaders in Latin America, will arrive here tomorrow, and be the honored guest at a number of receptions and meetings arranged by Spanish-speaking residents, according to announcement made yesterday.

Dr. Vasconcelos has recently returned from a tour of Europe where he was awarded degrees by the universities of France and Spain for his exceptional educational achievements in Mexico and South America, and is coming to Los Angeles direct from New York, where his lectures and writings on Latin Americans were highly praised.

## MEDALS CONVEY STATE IDEALS

Junior Olympics to Get Special Trophy

Harold C. Swartz, Los Angeles Artist, at Work

## OLYMPIAD TRYOUTS TO DRAW MANY

Southwest Finals June 16 Duplicate Features of International Games

A foretaste of what Los Angeles and California may expect in 1932 when the International Olympic Games are held in this State will be afforded to the Southwest Olympic finals and entertainment program at the Coliseum on June 16. It was stated yesterday by Robert S. Weaver, president of the Southwest Olympic Games Committee.

The Coliseum carnival will have many features duplicating the international games. Carrier pigeons, emblems of peace, will be released as the contests in the arena open.

Parade of nations in which athletes of the Southwest will carry the flag of the forty-six nations participating in the Olympiad will be another feature taken from the international games.

More world-renowned athletes will compete in the Southwest finals here than will be in any other international tryout in the United States. It is expected that a number of new records will be made.

European papers report crowds of visitors from all parts of the world gathering for the Olympic Games there. Southwest Olympic officials predict that in 1932 California will witness an influx of many hundreds of thousands.

## Stutsman Now Candidate for Superior Bench

Judge Stutsman, former presiding judge of the Municipal Court, and now sitting in Superior Department 48 by appointment of the Judicial Council, has consented to run for the Superior Court, Division 4, according to the announcement of his organization committee, Perry W. Weldner, Joseph Scott, Dana Weller, and H. L. Carnahan. Judge Thomas Gould is the present occupant of Division 4.

Judge Stutsman was born in Burlington, Iowa, in 1871, and graduated from the University of Iowa. After twelve years of law practice with his father, A. H. Stutsman, former judge of the Iowa District Court, he came to Los Angeles in 1903 and was admitted to practice. With the creation of the municipal courts in 1926, he gave up his law practice to accept appointment to the new courts. He was elected without opposition at the next general election. He resides at 1411 Curson avenue, Hollywood. He has been very active in the Hollywood Masonic club.

## Defendants Win Damage Actions

William Stuart and G. W. Richert were awarded a judgment in three different law suits for personal injuries brought against them by Rosa Adrianson, A. Fogle and Nettie Young.

The actions followed an automobile collision that occurred on October 23, 1925, on Huntington Drive in San Marino. One of the cars was driven by Chalmers Focht, employed by the defendants. Damages were asked on the grounds Focht was responsible for the accident. The plaintiffs held his employers were liable.

Stuart and Richert asserted the car in which the plaintiffs were riding was being driven negligently at the time of the accident.

## W HEN the Junior Olympic Games were announced two months ago Harold C. Swartz, 3827 Ronda Vista street, sculptor, decided that the medals offered by the national organization are not typical of Southern California and created a design of his own.

The relief submitted by him was immediately accepted by the executive board of the games and the medals will be presented to every winner in Southern California by the Los Angeles Times.

Some of the outstanding pieces are the bust of Roosevelt now in the Los Angeles Roosevelt High School, the bust of Rufus B. von KleinSmid, president of the University of Southern California and many classics such as "Diana," "Melpomene," "Elizabeth" and "Crepuscule."

World-known critics expressing their opinion of the work of Swartz declare that his work is animated by a fluent, ever-present sense of beauty, combined with the undercurrent of aloofness and distinction which is peculiar to the medium of sculpture as a fine art. A fellow artist said that in Swartz's subjects he was moved by the unobtrusive but powerful feeling taken from the contours and lines is established.

Mr. Swartz recently returned to Los Angeles following a two-year tour of the world during which time he studied in Germany, France and other world art centers.

## FINGERPRINT MAY HELP IN BURIAL CASE

Pipe Found in Home of Woman Entombed Alive; She Will Be Questioned

Hope of apprehending the assassin of Mrs. Marie Billings, who was buried alive in the Puente Hills after having been attacked last Wednesday now rests in the possible identification of fingerprints on a piece of gas pipe found in her home, it was stated yesterday by Capt. William Bright of the Sheriff's homicide detail. The pipe was found by deputies working under Bright's direction when they searched the Billings home and the captain believes the impressions offer the best clue yet unsecured.

The victim is recovering at White Memorial Hospital at Whittier from her harrowing experience and the officers plan to question her today, provided her condition permits. It is believed this questioning may disclose other important points which may aid in the search for the attacker.

The fingerprints have been photographed and, in addition to a check-up of local files, they have been forwarded to Washington, D. C., for comparison with those of nationally known criminals.

## Pola Negri to Visit Europe

With her present vehicle in the final stages of production, Pola Negri, Paramount star, yesterday began preparations for a vacation trip abroad. She is to be accompanied by Prince Serge Mediant, her husband.

The actress announced yesterday that she plans to leave Hollywood about June 1 and to spend three months in Europe.

It was also disclosed yesterday that Norman Kerry, her present leading man, is to go to England after this production to star in a British film.

## PROGRAM FOR CHURCH BAZAAR ANNOUNCED

Plans for the bazaar of St. Joan of Arc Church, 318 South Ford Boulevard, from the 21st to the 26th inst., include a program of entertainment followed by a boxing match each evening at 10:30 p.m. Fancy work booth stands dispensing edibles and a country store are among the attractions which the committee is arranging. There is to be no admission charge.

## MAN KILLED AS STILL EXPLODES

Underground Distillery and Shed Above Wrecked

Fire Follows Blast at Rear of Woman's Home

Place Raided Recently and Proprietor Sought

Trapped in an underground distillery where a 200-gallon still exploded, setting fire to the plant, James Talmanti, 30 years of age, was burned fatally yesterday morning.

The illicit liquor-manufacturing plant, according to police, was located at the rear of 1418 East Twenty-seventh street. A small shed had been subsided by Mrs. Elizabeth Crawford, resident in the dwelling in front, to a man whose name was not given. Police reported, in this the distillery was installed, a large concrete basement had been constructed, police reported. In this the distillery was installed, a large concrete basement had been constructed, police reported. In this the distillery was installed, a large concrete basement had been constructed, police reported.

Shortly after dawn yesterday the neighborhood was jarred by a heavy muffled explosion. Smoke issued from the shed and the fire department was called.

Fireman Pegley of Engine Company No. 14 first into the smoke-filled structure, discovered a trap door in the floor, part of which had been torn out, by the force of the explosion. Pegley heard moaning in the basement and braving the dense smoke and the chance of further explosions, lowered himself through a hole in the floor. A few moments later he reappeared bearing the severely burned form of Talmanti. The latter died before medical aid could reach him. A few moments later he reappeared bearing the severely burned form of Talmanti. The latter died before medical aid could reach him.

Mrs. Crawford, according to Officer Henry, stated that Talmanti was a stranger to her. Police are searching for the man who subsided the shed from Mrs. Crawford. Talmanti is said to have been employed by the shed.

Three months ago the place was raided by police and George O'Connell was arrested while tending the still. He was later released on a \$10,000 bond. Police are searching for the man who subsided the shed from Mrs. Crawford. Talmanti is said to have been employed by the shed.

The couple announced their wedding at the time as to the date of the wedding. Although it was a fashionable affair it escaped publicity and the fact that they had been married was not publicly known until yesterday.

Miss Brown was attracted to Hollywood by the lure of the films when she was introduced to Halperin at the Wilshire Country Club. She persuaded her against entering films when she agreed to marriage.

## Program Ready for Meeting of Bank Chapters

Yosemite Park has been selected for the joint meeting of the San Francisco and Los Angeles sections of the American Institute of Mining and Metallurgical Engineers. The meeting includes the Woman's Auxiliary, numbering many prominent San Francisco and Los Angeles women.

## Henry Divorce Trial Will Be Resumed Today

Taking testimony in the divorce case of Albert Preston Henry against Mrs. Gertrude Virginia Henry will be resumed before Judge Valentine at 10 a.m. today.

Today begins the fourth week of the hearing, all of the time spent up to the present in taking evidence of the husband who is accusing his wife of infidelity, but who has named no correspondents in the case.

A score or more of witnesses have been heard, principally private detectives employed by the husband, who spent months in trailing the movements, day and night, of Mrs. Henry.

One of the principal charges laid at her door is that she was among the guests at wild parties at various places.

Interest is now centered in the wife's answer to the charges when she takes the witness stand, which will probably be sometime during the latter part of this week.

## B'NAI B'RITH PICNIC POSTPONED TO JUNE

Originally scheduled for the 27th inst., in Orange County Park, the B'nai B'rith picnic of Southern California lodges has been postponed until June 10, next, and the local chapter at the B'nai B'rith Mission Road. More than 2000 are expected to attend, from Los Angeles, Anaheim, San Diego, San Bernardino, Santa Monica, Pasadena and Long Beach. An orchestra has been engaged to play throughout the day athletic events occupying the early part of the afternoon, with an exhibition by trained animals to follow. After 2 p.m., the visitors will be permitted to see and feed animals in the San Diego Zoo.

## TEST FOR POSTOFFICE JOBS SET FOR JUNE

Announcement was made yesterday by Warner McIntyre, secretary of the United States Board of Civil Service Examiners, that an examination will be held by the examiners some time after June 1 for the position of postoffice clerk and post-office carrier.

Applications for the positions will be received until June 1, and male applicants whose names are on the list can operate and have a license to operate a car. While the examination is open to male and female, it is not the policy of the postmaster to appoint women.

## CUPID SNATCHES HER FROM FILM CAREER

Mr. Edward Halperin

Halperin and Bride Back Home

Film Producer's Marriage to Society Girl Not Generally Known

Edward Halperin, film producer, and his bride, formerly Catherine Brown, Northern California society girl, are back in Hollywood following their honeymoon.

They were married the latter part of last month at a \$10,000 wedding at the Bryson Apartments.

The couple announced their wedding at the time as to the date of the wedding. Although it was a fashionable affair it escaped publicity and the fact that they had been married was not publicly known until yesterday.

Miss Brown was attracted to Hollywood by the lure of the films when she was introduced to Halperin at the Wilshire Country Club. She persuaded her against entering films when she agreed to marriage.

## COOK CLASS WILL HOLD TWO MEETS

Demonstration Room of Southwest Building to See Well-Filled Week

The coming week's program in the Demonstration Room of the Southwest Building embraces events for the afternoons of Tuesday to Friday, inclusive. Access to the hall is by elevators direct to the third floor of the building, 130 South Broadway.

The Times' free cooking school, with Mrs. Isabelle (Chad) Wyman in charge, will meet tomorrow and Friday at 2 p.m. In each class there is a different menu offered and all dishes are made in the model kitchen by Mrs. Wyman, and fully explained. Recipes of the dishes given are free to all who attend. The daily menu used by Mrs. Wyman is printed in The Times the morning of the classes.

On Wednesday Mrs. Irwin Kellogg talks at 1:30 p.m. on the art of breathing, and at 2 p.m. Rose Waterman Harris demonstrates beauty methods by living models.

Thursday at 2 p.m. Dr. Philip M. Lovell, head of the Care of the Body department of The Times Sunday Magazine, delivers a lecture on the way to be healthy. These are open to all, free, and Dr. Lovell will answer written questions. Great interest is manifested in these plain, sensible talks, illustrated with blackboard explanations.

## THREE NEW PAVING JOBS COMPLETED

Sepulveda, Downey Road and San Fernando Work in Major Traffic Plan

Completion of three important major traffic paving projects has been announced by R. H. Rook, inspector of public works. These projects are located in the San Fernando Valley, the East Side Industrial section, and the western residential area.

The paving of Sepulveda Boulevard, from Ohio avenue, Sawtelle, to Pico Boulevard, is completed, offering a wide highway for motorists. The Sepulveda Boulevard project is included in the major traffic street plan of the Board of Civil Service Examiners.

The second project is the paving of the Fourth and Rita streets improvement district in the San Fernando Valley, involving a large area and a cost of \$208,000.

The third project is the paving of the Fourth and Rita streets improvement district in the San Fernando Valley, involving a large area and a cost of \$208,000.

## Producer to Aid in Lindsey Film

Charles R. Rogers, producer, representing the interests of Asher, Small & Rogers, arrived from New York yesterday to co-operate with Sam Sax, who will be in charge of the filming of Ben E. Lindsey's "Compulsive Marriage," in which Betty Bronson and Alice B. Francis have been cast.

Rogers attended the First National sales convention in Chicago, pledging the delivery of his series of Ken Maynard vehicles, which he releases through this company. He also will make announcement soon of new production plans apart from his Asher, Small & Rogers affiliation.

Today begins the fourth week of the hearing, all of the time spent up to the present in taking evidence of the husband who is accusing his wife of infidelity, but who has named no correspondents in the case.

A score or more of witnesses have been heard, principally private detectives employed by the husband, who spent months in trailing the movements, day and night, of Mrs. Henry.

One of the principal charges laid at her door is that she was among the guests at wild parties at various places.

Interest is now centered in the wife's answer to the charges when she takes the witness stand, which will probably be sometime during the latter part of this week.

## FOLLIES BURLESQUE

AS YOU LIKE IT TO PEOPLE IT DANCING BEAUTIES

## EIGHT DOGS DISCOVERED TO BE MAD

Fifty Persons Bitten and Seventeen Being Treated for Rabies Pariah Reports

With fifty persons bitten by dogs during the last week, seventeen of them now undergoing the Pasteur treatment, and eight dogs found to have rabies, the situation has become such that Dr. George Parrish, city health officer, has called the attention of the City Council to it in an effort to obtain drastic action to curb what is considered a menace to the populace.

Dr. Parrish has drawn attention of the humane treatment of animals department to the reports made to his office, with request that all stray dogs should be picked up off the streets and that owners of pets should be careful to keep them away from stray animals.

Rodman Robeson, manager of the humane treatment of animals department, yesterday stated that he had a number of inspectors at work picking up stray animals off the streets. He asked that information of any dogs showing signs of rabies should immediately be telephoned to Olympia 6470, and a man will be dispatched to round them up.

Three dogs suffering from rabies were picked up during the week in Highland Park, Robeson reported. Two others had been picked up in the southern part of the city and one in the southwest. Two more are now under observation in the city pound.

## COOK CLASS WILL HOLD TWO MEETS

Demonstration Room of Southwest Building to See Well-Filled Week

The coming week's program in the Demonstration Room of the Southwest Building embraces events for the afternoons of Tuesday to Friday, inclusive. Access to the hall is by elevators direct to the third floor of the building, 130 South Broadway.

The Times' free cooking school, with Mrs. Isabelle (Chad) Wyman in charge, will meet tomorrow and Friday at 2 p.m. In each class there is a different menu offered and all dishes are made in the model kitchen by Mrs. Wyman, and fully explained. These are open to all, free, and Dr. Lovell will answer written questions. Great interest is manifested in these plain, sensible talks, illustrated with blackboard explanations.

## AN OPEN LETTER FROM D. W. GRIFFITH

We wish to thank the people of Los Angeles and California for their friendly support. Here we have had our most desperate struggle, our dreams, AND OUR SWEETEST AWARDS:

We thank Mr. Edwin Schallert for his article in The Times: "It overthrows certain conventions of the film theatre to a degree... 'Drums of Love' is a work of beauty... Two things—the dramatic is marvellously appealing—and the love scenes and the acting of the individuals—THIS GOES FARTHER THAN MERE ACTING—GRIFFITH IS STILL A VICTOR... and the picture is radiant and rare with that lyrical spell which is his creation for the film... SOMETHING ONLY GRIFFITH CAN EVOKE. An ideal movie-making ovation for the director."

We wish to thank you, Miss Louella Parsons, for writing in The Examiner: "ANOTHER FINE GRIFFITH TRIUMPH, with scenes of beauty and power... is the new picture 'Drums of Love'... Scenes fraught with dreadful intensity are worked out as only Griffith knows how... The battle scenes are reminiscent of 'The Birth of a Nation,' all showing the masterful touch."

We thank Miss Eleanor Barnes, for saying in The News: "The delicate treatment of the TORRID LOVE SCENES and the powerful battle scenes awaken AN OUTBURST OF APPLAUSE. 'Drums of Love' PROVES A TRIUMPH for D. W. Griffith... He still the master... And Lionel Barrymore does marvellous acting."

We thank Mr. Harrison Carroll for his opinion in The Herald: "Griffith has created a picture which burns with the clear flame of... THE OLD MASTER HAS NOT LOST HIS FIRE... these are scenes in 'Drums of Love' that will open the eyes of the most... our directors."

We thank Mr. Monroe Lathrop for his praise in The Express: "Griffith's oft-proved dramatic feeling, his skill of expression and power in handling large numbers are displayed. 'DRUMS OF LOVE' GRIFFITH AT HIS BEST AS BOTH POET AND MASTER. Barrymore's delineation of aroused emotions is terrific."

We thank Mr. Gilbert Brown, who says in The Record: "THERE IS REAL BEAUTY AND DIGNITY IN GRIFFITH'S STORY... 'Drums of Love' is a dramatic love story."

We thank Hugo Riesenfeld, Managing Director of the United Artists theatre, for his splendid musical accompaniment, his appropriate stage and surrounding program.

(Signed) D. W. Griffith

2.95 Yard

A Dyas Event—bringing a wonderful array of color, design and quality at a very low price! Mallinson's beauty-famous silks in a representative collection of the season's very choicest patterns. Large florals, richly hued—dainty little flowerets—gay sports stripes—conventionals—designs modernistic as modernism is pretty—light, dark and medium colorings—for every style-use of late spring and summer wardrobes—see them while choice is at its best!

—equally important:

Drawn-Work Georgette 2.35

A very new georgette, already accepted by some of the leading couturiers as a pronounced favorite. Clever little drawnwork checks—lacy, adorable! Even the plain georgette of this quality sells for more than this special Maytime sale price. Beautiful colors.

Cheney Bros. Flat Crepe 2.35

Not just crepe—though the price is so low—but Cheney Bros. flat washable crepe—fashion-right for so many uses. Remarkably wide choice of colors, light and dark.

Popular White Silks 2.35

A group to interest every woman with summer sewing ahead. Fine crepe-back satin, heavy Canton crepe—crepe Roma—two qualities of silk georgette—beautiful. Brides, take note.

Fine Kashan, Special 1.95

When have you heard prices like this for quality such as this? You must see the quality to appreciate the value. Splendid selection of colors—all wool—54 inches wide.

Oblong Doilies.....20c to 2.00 each  
Square Cloths.....3.45 and 5.35 each  
BOTH STORES—SECOND FLOOR

Permanent Waving—  
Individualized!

Your permanent wave is no better than your operator. Therefore it behooves you to know that your operator is fashion-minded and artistic. Dyas operators are not only experienced and efficient, but have a reputation for studying the individual requirements of your hair texture, head and face contour. Advice without obligation. Summer at hand when a permanent is most appreciated.

BEAUTY SALON—FOURTH FLOOR

Model Hats  
—deeply reduced to  
16<sup>50</sup> and 20<sup>00</sup>

Replicas and adaptations of Paris successes include a pleasing choice of sports, street and dress hats developed in the season's smartest straws, fabrics and colors.

Reductions mean genuine savings only when one is assured of fashion-rightness in the regular way—such assurance as one may always feel about Dyas millinery.

For youth and matron—very lovely hats that were priced much, much more.

## SOCIETY

BY JUANA NEAL LEVY

Aided by an early Easter and despite unseasonably cold weather, the spring social season is at last under way, with much promise of being a brilliant one and well patronized by Americans.

Of course, this being an election year in France, as well as in the United States, many familiar faces are missing. Nevertheless, Ciro's, the Ritz and the Circle Interalliees are comfortably crowded with the fashionable and some new faces have replaced those of former years. Last week, both for luncheon and for dinner, the Ritz was the scene of several interesting parties. Mr. and Mrs. Frederick Prince of Boston, Mass., who were in Paris for a fortnight before sailing for America, entertained a number of distinguished guests at luncheon, among them United States Ambassador Herrick of Ohio and Gen. Pershing. Others in the party included Col. and Mrs. Bentley Mott, Edward S. Blair and his daughter, Mrs. Howard Linn, and Miss Micheline Resco, the artist, who has painted several portraits of Gen. Pershing which have been exhibited both in New York and in Paris.

Another interesting luncheon was given by Mr. and Mrs. Albert Gallatin, some of their guests being Comtesse of Strafford, originally of New Orleans; Mrs. Tweed, Comte de Lestevy, Frank Burke Roche and Randolph Mordecai.

Mr. and Mrs. John Magee of New York, who have been Paris visitors every spring for many years, took over the private salon of the Ritz one evening for a dinner and bridge party. Among their guests were the Marquis and Marquise de Polignac, Gen. and Mrs. Cornelius Vanderbilt, Mr. and Mrs. William Coady Low, Lady Mendi, Mr. and Mrs. Farnley Herrick, Mr. and Mrs. James D. Sawyer (the latter formerly Mrs. Howard Cushing), Count and Countess de Perigny, Mr. and Mrs. Robert Goelet, Col. and Mrs. James Logan, Mr. and Mrs. Winthrop and Mr. and Mrs. Sheldon Whitehouse.

At the same time the main restaurant of the Ritz was almost en-

## YOUR BABY and MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

### ANY RASH IS DIFFICULT TO DIAGNOSE BY DESCRIPTIONS

Mrs. A. E. M. writes: "I take pleasure in reading your advice to mothers. My baby is now 8 months of age. I still nurse him. He has nursed well from the start. He is a good baby and frequently sleeps from 10 to 6. He likes to play with the other children when they are home from school, laughs and crawls and likes to play with a rattle or a rubber ball or tear a paper bag. He raises his head when on his stomach."

"When he was about 3 months of age his cheeks broke out with a rash like fire. It would increase around cheeks and on fat part of chin, then it would dry and he would scratch it. If I used salve it would disappear for a few days, but then come back the same as ever. It does not look like any eczema that I have seen, but the doctor said it was and suggested a couple of 'light treatments.'"

"I feel that my diet has something to do with it. I drink milk and cream and eat a lot of celery. I discontinued the cream, but didn't think it made much difference, what do you think about the celery?"

Answer: It is more than likely that the fire-like rash is a form of eczema, and this in your case may

be due to an extremely rich breast milk, since you drink such rich liquids. I should discontinue the cream (I am sure the celery is not at fault) nurse the baby only once in four hours and give water before each nursing. Exercise yourself to the point of perspiration and cut down on all the fatty foods you are now eating—rich gravies, bacon, cream, butter, salad oils, etc. This may reduce the amount of cream in the milk and help the baby in that way. I believe the ultra-violet-ray treatments would be extremely helpful. They are used with good success in treatment of eczema.

Mrs. V. R. H.: On April 30 an article was printed on second summer sweating which answered exactly the questions your letter asked. I am sure you must have seen it, as your letter was written previous to that. By now you know that I think a 2-month-old baby should not be nursed through the second summer. I never heard the superstition you quoted, but you can almost always find another saying exactly the opposite. You can't live by proverbs, they are too contradictory.

Mrs. F. H. T.: Try giving the 2-year-old who suffers from summer diarrhoea a baked potato at night instead of his usual serving of cereal. This may be all that is necessary to clear things up.

Ciro's numbered more fashionable than usual. Rear-Admiral Louis Joseph of the New York Naval Reserve, aide to Gov. Smith, and Mrs. Joseph and their daughter had as their guests Capt. Orace White, originally of Missouri, the United States naval attaché at the Paris Embassy, and Mrs. Capt. R. O'Neill Butler and Mrs. Butler and Capt. Finnelly.

Miss Anna May Wong, the Chinese film star of Hollywood, has arrived in Berlin and will play in several Richard Eichberg films. She played with Douglas Fairbanks in "The Thief of Bagdad." Miss Wong thinks she can learn much from the German films. Her first engagement will be in the film, "Schmutzige Geld" ("Filthy Luck") with Herr Karl Volkmüller.

William Frugh, traveling in Germany, was a recent visitor to Dresden, where he registered at the Hotel Bellevue.

The arrival of the Red Star liner Beigenland, which is just completing a world tour, brought many visitors to Monte Carlo last week, among them being Mr. and Mrs. Hal Roach of Hollywood.

United States Ambassador Gibson, who has been on a short holiday in England, has returned to Brussels and resumed charge of the Embassy.

Mr. and Mrs. J. J. Cooper, who have been traveling in Italy, were recent arrivals in Perugia, where they registered at the Hotel Brufanti.

Mr. and Mrs. Charles Blake of Los Angeles have been spending several days in Biarritz, France, at the Hotel Miramar.

David Babcock and family have been touring in Austria this season. They were recent visitors to Vienna, where they stopped at the Hotel Bristol.

Arthur E. Carew of Hollywood has been several days in Rome as a guest of the Hotel des Ambassadeurs.

Mrs. George White entertained last week in her apartment in the Rue de la Boetie in Paris.

Conrad De Angelo, director of scientific organization of Los Angeles, has arrived in Naples, Italy, aboard the Dollar liner President Polk. Other California passengers included Joseph G. Keeler of San Diego, arriving from Kobe, Japan, and Ronald M. De Long of the Dollar Steamship Lines in Los Angeles, arriving from San Francisco.

Mr. and Mrs. Howard Throckmorton of Beverly Hills are guests of the Hotel Savoy in London.

Mrs. Edna B. Higginson and her son, Girvan, of Santa Barbara, will arrive in Europe from New York this week for a tour which will include visits to London, Paris, Carlsbad and Prague.

Mrs. Higginson also expects to spend some time in Pau, France, visiting Mr. and Mrs. Henry A. Dresser of the Park Lodge School, where her son formerly was a student.

Miss Norman Macbeth has been visiting in Florence, Italy, as a guest of the Hotel Baglioni.

The Tully sisters, four American girls who started out six years ago to girdle the globe, earning their way, left Paris last week. After leaving Los Angeles in 1922, appearing in a musical and dancing act in Asia, Australia and several nations in Europe, they have decided to give up the 'round the world' trip and return to Java. The four, Mary, Ivy, Gladys and Bernice Tully, are known on billboards of three continents, and also in their native town of Los Angeles. They are accompanied by their mother, Mrs. Della Tully.

Mr. and Mrs. Robert Swigart of Long Beach are for some time in Lausanne, Switzerland, at the Hotel Royal and Mirebeau.

THE VALLEY OF IVORY The legend of the "Valley of Ivory" has persisted for years. It is to the effect that somewhere in the heart of the dark continent lies a valley to which, since the beginning of time, elephants have gone to die. It is strange that the carcasses of elephants dead from natural causes are never found in the jungle. Study of this phenomenon leads men to believe the giant beasts, sensing old age or disease, retire to some remote secret valley, there to die amid the whitened bones of their forebears.

A few of the native chieftains knew of the whereabouts of this mine of wealth, but they have never related it to any white man. Now, however, a celebrated African outlaw who has tired of his life of crime has offered to reveal the spot if he is granted amnesty and a reward and it may be that the wealth of the "Valley of Ivory" will be scattered about the entire world in the shape of bills of carrying.

John Adams and Thomas Jefferson were two ex-Presidents of the United States who died on the same day, July 4, 1826.—[Liberty]

## NANCY PAGE

"Up Jenkins" and Charades Entertain Modern Youths

By Florence La Gamba

Parties for 15-year-old boys are not the easiest things in the world to plan. Nancy's mother came to that conclusion after she had entertained a visiting grand nephew. She wanted to avoid kissing games and chances for petting. The group was not keen about bridge. They enjoyed dancing and she saw to it that there was good music. But before the dancing started she tried an experiment.

She started the evening with "Up Jenkins," that hilarious game which had entertained her own children. Then she followed it with the childish "Beast, Bird or Fish," and was amused to discover that the modern generation is no quicker mentally than her own had been. They made just as many slips and seemed to enjoy their mistakes just as she had done forty years before.

She did not try any of the guessing games. She knew they would consider them silly, but charades gave them teen enjoyment. Perhaps the favorites were cro-cus, plain-tiff and port-man-tau. They puzzled over the old bit of advice, "Do as I do, and say what I tell you—boots without shoes, boots without shoes, boots without shoes." The success of the evening lay in keeping the guests so busy they did not have time to sit around and become self-conscious. The party was wholesome without being namby pamby. They all told their hosts that they had had a good time and they said it as if they meant it.

When one has a party one needs refreshments. Send to Nancy Page, care of this paper, enclosing a stamped, self-addressed envelope, asking for leaflet on "Sandwiches."

Mother: You are at the bottom of the spelling class again, are you? Backward Lad: I'm "How did that happen?" "Got too many 's' in scissors."—[London Answers]

## Use Whitex to restore whiteness to silks and wools

... so much Spring and Summer sports-wear—stockings, skirts, sweaters, blouses, frocks, etc.—are of white silk or wool.

... and how quickly sun and laundering change their sparkling, shimmering whiteness to a drab yellow that is, unless Whitex is used! For this special bluing keeps white silks and wools really white—or restores original whiteness if they have yellowed. Just a simple rinsing is all that is necessary.

... the finest households use Whitex, too, for all white things—in stead of ordinary bluing. It gives better results! Made by the makers of Tintex—whichever means a perfect product!

THE TINTEX GROUP—Products for every Home-tinting and Dyeing Need

Tintex Grey Blue—Tints and dyes all materials.

Blue Blue—For instant color—dyes all materials.

Color Remover—Removes old color from any material so it can be dyed a new color.

Whitex—A special bluing for restoring whiteness to yellowed silks and wools.

## TESTS FOR CHINA

Collectors of old china will be interested to know that the authenticity of certain types of old porcelain can now be determined by chemical tests. Under the direction of Dr. Alexander Scott tests have been worked out in the laboratory of the British Museum that have helped classify several doubtful pieces in the museum collections without damaging the specimens. Old patent acts were consulted to determine the chemical composition of Old Bow and Chelsea china and tests were then resorted to, to detect the presence of various phosphate components known to have been used in its composition.

## COOLING EFFECT OF COLOR

Tests made by engineers with instruments that measured heat flowing through a sunlit roof showed that a white roof for a house is as cooling as the white clothes you wear in hot weather. Shiny aluminum paint is even better, as it reflects away the sun's hot rays. A roof coated with it transmits 38 per cent less heat inward. This probably works both ways, as in winter some heat escaping from the house may be reflected back again, resulting in a fuel saving.

# Vogue Patterns

cost a few cents more

## The difference is STYLE INSURANCE

NO DRESS can be smarter than the hand that cuts it. When you cut your next dress by a Vogue Pattern... you'll have the style-authority of three continents at your finger-tips!

A Vogue Pattern is fashion-right... Paris-in-tissue-paper. A Vogue Pattern is fool-proof... accompanied by the most explicit directions for ordering the material, laying out the pattern, cutting, fitting and finishing.

With a Vogue Pattern you can dress individually... you will never see the same frock on another woman in the same material.

And all this, for the few cents extra that a Vogue Pattern costs!

## For instance, these five patterns

AT THE left above... your runabout hot-weather dress, in blue and white handkerchief linen or wash silk... with the new sailor influence.

Next to it, the polka-dot-and-plain frock that every woman wants this season... in blue-and-white, brown-and-white, or black-and-white.

In the centre, your lace evening dress, cool and infinitely flattering, with its smart little jacket to match.

To the right, your afternoon street costume of two tones of plain crepe, with scarf necklines and godet skirt.

And, finally, your bridge frock, with its draped line, uneven hem and tiered drapery in plain chiffon.

Every one of these frocks possesses the fashion points of the season. And each one is here merely to represent a type of frock of which Vogue has made you dozens and dozens to choose from.

Vogue Patterns are issued in New York and mailed direct to Los Angeles every two weeks. Most of them are priced at 65 cents. Blouses, skirts, children's clothes, 40 cents.

"Special Patterns" to fill needs that do not occur in the average

smart wardrobe. \*1. Vogue Patterns are purchasable in Los Angeles at

### HEALTH and DIET ADVICE

Dr. Frank M. Coy

Send for my special article called "A Good Cleansing Diet."

### QUESTIONS AND ANSWERS

Question: Mrs. I. G. asks: "Will you please tell me what causes internal trembling of the nerves?"

Answer: The trembling you write of is usually produced by the pressure from excessive gas on the solar plexus or other sympathetic nerves in the abdomen.

Q: North asks: "How does 'corn pone' differ from plain cornbread?"

A: This title comes from the Indian "pone," "apone" and "opone," all signifying "bread" made by cooking thin cakes of cornmeal in hot ashes. "Corn pone" is an alternative southern title for cornbread—used for both the plainest and the richest.

Q: G. K. writes: "Please advise me through your column how I may cure a severe case of acne which I have had for three years. Have tried many doctors, but got only temporary relief."

A: Acne is primarily caused by an unhealthy state of the colon, which is due to using the wrong kind of foods. A contributing cause may be a naturally oily skin, or carelessness in keeping the face clean. Wash the face several times daily with soap and water, following with cold towels. Eliminate all fats and oils from your diet, using only small amounts of butter. Overcome constipation as soon as possible by following the diets I recommend in this column. Meanwhile, use a daily enema until normal bowel action is established.

A shark's hide is tanned and made into shoes and luggage bags; its fins into delicacies for Chinese epicures; fine oil for watches is extracted from the carcass and the residue is turned into excellent fertilizer.

## CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Every Tuesday and Friday at 3 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 130 South Broadway.

- BREAKFAST**  
Strawberries with Cream  
Poached Eggs Bombay  
Waffles  
Milk  
Coffee
- LUNCHEON**  
Calf's Brains, Tomato Sauce  
French Fried Potatoes  
Apple Turnovers  
Iced Tea
- DINNER**  
Consomme Venetienne  
Dill Pickles  
Smoke Beef Tongue  
Baked Potatoes  
English Spinach  
Tomato and Watercress  
French Dressing  
Cocoanut Custard Pie  
Iced Tea  
Coffee
- CALF'S BRAINS WITH TOMATO SAUCE**  
Cut two cold boiled calf's brains

in two lengthwise, season with salt and pepper, roll in flour, then in beaten eggs and then in fresh bread crumbs, fry in deep hot fat and serve on a napkin garnished with parsley and lemon. Serve tomato sauce separate.

### APPLE TURNOVERS

Roll out some rich pie paste about one-eighth of an inch thick, cut in rounds about four inches in diameter, wet the edges with water, place three tablespoons of chopped apples that have been mixed with sugar and a little cinnamon in the center. Dot with a small piece of butter, fold over, bringing the edges together, press tightly, brush over the top with beaten egg and bake. When near-

ly done, dust with powdered sugar and return to the oven until glazed.

### SMOKED BEEF TONGUE

Put a smoked beef tongue in a saucepan and cover with cold water, bring to a boil, then allow to simmer slowly until tender. Cook four bunches of spinach, season, drain, chop fine and place on a hot platter. Slice the beef tongue and place on top of the spinach, serve with a sauce Maitre.

### COCOANUT CUSTARD PIE

Mix half a cupful of sugar with one-third of a cupful of flour and a few grains of salt, place in the top of a double boiler, stir in two cupfuls of milk and stir and cook until thick and smooth. Add the beaten yolks of two eggs, one-half a cupful of shredded cocoanut. Cook one minute, remove from the fire, and stir in two teaspoonfuls of butter and one tablespoonful of orange juice. Pour into a baked pie shell, sprinkle with cocoanut, place in the oven and brown.

### DOUBLED THE ANTE

The advent of twins upset the calculations of fifteen Hackensack (N. J.) merchants who agreed in January to outfit the first baby born in February completely, even to a \$10 gold piece for the baby's first day. The merchants were sportsmen, however, and outfitted little Carol Jessie and Jeanne Sylvia Thwaites and gave them each a \$10 gold piece. Moreover, they renewed their offer for the month of March.

## HOUSEHOLD SUGGESTIONS

### Embarrassing

If you haven't used a certain pile of dishes for some time be sure to go over them beforehand and see that the underneath ones are not dusty.

### Chased Brass

It will always leave a whitened appearance if chased brass is cleaned with powder. Wash the article in soap and water and then dry. Then rub over the article with a freshly cut lemon. Rinse and dry with a chamade. No cleaning powder will be necessary.

### Just a Precaution

Once a week put a large lump of washing soda in the sink and pour over it boiling water until it has all washed down the drain. It will prevent the grease from accumulating and stopping up the drain and also take away any unpleasant odors from around the sink.

### Old Papers

A neat and orderly way to keep old newspapers and magazines so they are ready for your particular hunt man is to have boxes a little larger than the average folded newspaper. Keep two strings crossed at right angles in the box. Lay the accumulated papers in on the strings and when the pile is large enough the strings may be tied. The piles of newspapers will never be disorderly if this method is employed.

## SCIENTIST HAS NEWEST FLOWER

San Fernando Florist Has New Iris  
Watsonia is Varied Colored Blossom

### Present Development Took Years of Labor

SAN FERNANDO, May 13.—Dr. A. D. Houghton, horticultural specialist of this city, whose fame as a plant breeder has spread throughout and beyond the confines of the United States, has won new renown with the developments of the Watsonia.

The Watsonia is a member of the iris family and first cousin to the gladiolus. It remained for Dr. Houghton to bring it to a point of such perfection that it now rivals its aristocratic kinsmen, the gladiolus, for supremacy.

The present flower is the result of experiments begun twenty years ago, with the Watsonia, native of Africa. It was a straggly, puny plant, with sickly blossoms. The scientist has met with many discouragements since that time, but the days spent in his gardens and the nights devoted to study have finally brought results.

Today a large section of his garden at 11224 Chatsworth Road, near the old San Fernando station, is colorful with the Watsonia—sturdy stalks bearing exquisite, delicate blossoms. The colors range from white to rich dark red, with shades of pink, coral and blue. The blossoms on some of the plants have as many as twenty-two petals. The broad, rounded, overlapping petals open out like a saucer.

In the undeveloped native state, there are never more than six petals pointed and narrow and the flower does not open fully.

Dr. Houghton is justly proud of his achievement. "This is the first flower line," he said, "in which the method of obtaining better varieties by crossing the best plants he could obtain. The male pollen of the one was powdered on the stigma of the other, and thus as the successive breedings were repeated, the qualities of the resulting flower improved. Dr. Houghton is now planning \$50,000 Watsonia bulbs."

### BUILD HOTEL AT LAGUNA BEACH

CITY COUNCILMAN TO CONSTRUCT HOSTELRY TO COST \$75,000

LAGUNA BEACH, May 13.—Construction of a fifty-two-room hotel, to be known as La Casa del Camino, representing a cost of \$75,000, will begin next week, it was announced today by William Riddell, City Councilman and builder of the hotel. The contract has been let to Umbarger & Co., Inc., Los Angeles. The hotel will be built along Spanish lines and will be erected at the intersection of the boulevard and Ocean drive. Riddell said that wrought iron balconies and grills, with mission tile roof, would give the hotel a Spanish appearance. C. B. Colyer, of Los Angeles, is the architect.

Councilman Riddell and Mrs. Riddell, both are coming to Laguna Beach from Chicago.

### COMMUNITY DINNER

Altadena Chamber of Commerce Celebrates Fourth Anniversary

ALTADENA, May 13.—The Altadena Chamber of Commerce will celebrate the fourth anniversary of a founding with a ladies' social dinner-dance at the Pasadena Golf Club, Altadena, next Tuesday evening. There will be music by two orchestras, including Bill Hatcher's all-orchestra and the Jose Ariza's panish entertainers. Entertainment will be provided.

The Altadena Chamber of Commerce is making as one of its chief objectives the fostering of good will and team-work in the community and friendly co-operation with the cities of the foothills and the Ojai and San Fernando valleys. A general invitation is extended to these cities to send representatives of their civic and social organizations to the anniversary dinner next Tuesday night. Participants may be heard from the secretary, N. Jay V. V. Green, Altadena.

**LODESTO MAN ELOPES WITH YOUNG GIRL**

REDLANDS, May 13.—William Thurston, 21 years old, accused of eloping a 15-year-old girl from Modesto to Redlands and living with her here for a week, is a married man, whose wife resides in Modesto. It was announced today by Chief of Police Walter L. Thomas.

Thurston was arrested Thursday morning on a charge of contributing to the delinquency of a minor. "We intend to get married," Thurston told the officers as he was taken to the Redlands Jail today. He declared that he had deserted an attractive young wife to run away with the 15-year-old girl. Chief Thomas stated. The couple will be held in court as soon as they arrive in Modesto, the officer from that city said.

**DIAMONDS IN GLOVE**

SANTA MONICA, May 13.—After trying on gloves for summer wear, Mrs. Marie P. Smith, 808 Third Street, Santa Monica, discovered she had lost a valuable gold ring studded with three diamonds, the ornaments apparently having slipped off her finger, according to a report here. A search is being made of glove boxes and showcases displays.

## POLITICS POPULAR PASTIME

Caltech Students Busy With Active Campaign for Student Offices

PASADENA, May 13.—Politics is king at the California Institute of Technology these days.

Two candidates for president of the student body were nominated yesterday. They are Tom Evans, track athlete, and John Daly, football player and head of the junior class.

The race for the vice-presidency lies between three juniors, Morton Shields, distance runner; Oswald Zahn, athlete, and Homer Reed, gridiron and diamond star.

Four students are in the race for student body secretary. They are Walter McMillan, editor; Raymond Kircher, editor of Tech, and Howard Baker, student publicity manager.

Strong competition is expected in the balloting for representatives at large. These candidates are Muff, Allen, Towler and Grunder.

Clayton Zipse is unopposed for the position of leader. "Mike" O'Haver and Clyde Shields are running a close race for athletic manager.

Frequent caucuses are being held preliminary to the approaching final election.

### SIREN PREVENTS HOLD-UP OF AUTO

DOCTOR AT EMERGENCY HOSPITAL FRIGHTENS BANDITS WITH SCREAM WHISTLE

PASADENA, May 13.—Chief Surgeon C. C. Troensegaard of the Pasadena Emergency Hospital reported to the police today that several men in a closed car attempted to rob him early this morning south of the Marcell Inn, Altadena. He stated that the driver of the sedan attempted to crowd his roadster over a steep bank and that they desired in the attempt only to sound the siren. The siren leading them to believe he was a police officer. Due to the fact that two of the men in the car were armed with revolvers, Troensegaard believed that his siren frustrated an attempt to hold him up.

### AUCTION TO AID HOME FOR AGED

SAN DIEGO, May 13.—Plans to auction off the unused portion of the San Altos subdivision between Imperial avenue and Market street and to donate the proceeds from the sale to the Palms Home for the Aged were announced today by Frank J. Berryman, owner of the property.

He estimates that the proceeds from the fifty lots should be between \$30,000 and \$50,000. A. G. Bruce, local auctioneer, has agreed to donate his services for the auction and the Palms Home, realty man, has agreed to devote his time toward the sale. The plan of Berryman has been accepted with enthusiasm by the committee representing the Palms Home and the committee consisting of Thomas Hamilton, S. I. Fox and F. H. Mead, will co-operate fully in the plan, which probably will solve the Palms home problem.

Under the arrangements as worked out yesterday the auction will start next Saturday and auctions will be held each Saturday, Sunday and Wednesday following until all the lots and parcels are sold. When the first six lots are sold the average of the amounts received will be computed and the amount will be turned over to the Palms Home, this process will be continued with the second six and so on.

Berryman, who conceived this plan of aiding the Palms Home, has been here about two years and a half, coming here from El Paso.

### TIPPED THE DRIVER

Negro Boy Gives Noted Actor Shiny Dime for Ride

PASADENA, May 13.—None of the laughing while Irving Pichel, Lazarus in "Lazarus Laughed," which has been playing at the Pasadena Community Playhouse, could equal his chuckle yesterday, when a negro boy whom he had given a lift, tipped the actor with a shiny dime—a la John D. Rockefeller.

The boy was waiting disconsolately for a street car when Mr. Pichel invited him to ride.

When the negro was in the act of stepping from the machine, he proffered his hand. Instead of shaking hands, he dropped the dime into "Lazarus' palm with the left comment, "Buy yourself a cigar, but I'm not giving it to you because you picked me up."

**INGLEWOOD EMPLOYS LOCAL ARCHITECTS**

INGLEWOOD, May 13.—Kistner & Co., Los Angeles architects, were last night selected by the Inglewood Union High School Board of Education to draw tentative plans for a proposed new branch district high school structure at Lavender.

The board was announced today by Clinton H. Spaulding, assistant secretary of the board.

A bond issue will be called at an early date to defray the cost of the proposed new building, but the amount and the date have not been set as yet.

**CANDIDATES TO SPEAK**

HUNTINGTON BEACH, May 13.—Candidates for the State Assembly from this district are to be invited to speak before the members of the Veterans Nonpartisan League at the meeting to be held at Fullerton on June 1. Hugh Miller of the Fullerton American Legion is to have charge of the arrangements for the meeting.

## Group of Youthful Musicians is Pride of Oxnard

Community Boys' Band of Oxnard. Musical organization sponsored by Oxnard Community Service, and directed by Al Smith. The boys plan to give a series of summer concerts.

## POLICE CHIEF GUILTY

Changes Attitude Assumed Since Arrest and Admits Charge of Drunkenness

SAN BERNARDINO, May 13.—Retracting his statement that his arrest in Colton early Friday morning on charges of possession of liquor and intoxication was a "frame-up," Chief of Police John Franklin of Riverside pleaded guilty to both charges before Police Judge James Temby in Colton at 8:30 o'clock last night.

Chief Franklin, explaining that he wished to "get this off his mind," waived time for the pronouncing of sentence, and was promptly fined \$100 on the possession charge and \$50 for intoxication. He said the fine.

Not only did the Riverside Police Chief frankly confess his guilt to the liquor charges, but requested Judge Temby to express his apologies to the arresting officers, Harvey Hubbs and George Henderson, for his insinuations against their integrity.

"I'm sorry for this whole thing," Chief Franklin said, "and I want to apologize to the arresting officers for my statements and my conduct. I am a mighty sorry for what I said. I am guilty and will take my medicine."

Chief Franklin, suspended by Mayor E. M. Dighton of Riverside, announced in Judge Temby's court that he would present his resignation to Mayor Dighton tomorrow.

Accompanied by Miguel Estudillo, noted Riverside attorney, Chief Franklin pleaded guilty to the charges of possession of liquor and intoxication. He said he was arrested at Colton early last night, questioning that the court call a special session to hear his case.

The Police Chief explained that a detective had followed him to the Riverside Police station, where he was arrested. "I want to get this off my mind anyway," he said.

Judge Temby obliged the officer and the chief, who were both charged with possession of liquor and intoxication, to both charges, the possession count being charged by the Riverside Police and the intoxication count being charged by the Riverside Police.

Chief Franklin's companion, William C. Rudersdorf of Palm Springs, arrested with the Chief, has requested a week's delay of his case.

Franklin's pleading of guilty and his resultant retraction of his charges of "frame-up" will relieve a tense feeling between Riverside and Colton city officials, which had developed since Franklin's arrest.

Mayor Dighton of Riverside resigned his office after having been charged with the arrest of Chief Franklin.

Franklin's arrest was a frame-up, Mayor Dighton said just that and nothing more.

Three Riverside Councilmen called at Colton yesterday to observe the trial of the Chief, the case, all announcing that they wished to "be in on the inside," anticipating a shake-up in the Riverside Police Department.

A. Taylor of Riverside said he proposed to demand a sweeping investigation of the activities of the Riverside Police Department, particularly within the past few months.

At the Riverside Police Department, a party of packing-house employees were riding together on a truck conveying them to the packing-house.

The party of wind lifted Martin's hat from his head. He made a quick grab for it, became overbalanced, and fell off the truck backward, landing on his head on the paved highway.

Martin's companions did not believe he was severely injured, but at the hospital it was disclosed by X-ray examination that his skull is fractured.

**BOAT READY FOR SEA**

Newport Beach Craft Prepared for Annual Inspection of Club

NEWPORT BEACH, May 13.—The Arrow, a fifty-four foot express cruiser, owned by Harry J. Bauer of Los Angeles, is now ready for service, after being on the ways at the Ben Cope boat works for the last four months.

The cruiser is being prepared for the annual inspection of the Newport Harbor Yacht Club next week.

It won the inspection last season with a rating of 100 per cent. It is one of the most up-to-date craft of its kind on the Pacific Coast.

The Arrow is one of many boats which are being built and repaired at the various boat works on Newport Bay this spring. More activity than in any previous season, is reported.

**DR. THOMAS W. NISBET OF THE PASADENA EMERGENCY HOSPITAL STATED THAT THE BOY'S SHOULDER BLADE AND TWO RIBS WERE FRACTURED. X-RAYS WILL BE TAKEN AT THE PASADENA HOSPITAL, TO WHICH MILNE WAS TRANSFERRED, TO DETERMINE THE EXTENT OF PROBABLE INTERNAL INJURIES.**

**PLAY DAYS LISTED**

Orange County Has Share of Stated Events Mentioned in Program

BALBOA, May 13.—Three Newport Harbor events are scheduled in "California Festivals of 1928," according to a program printed by the California Development Association, associated with various chambers of commerce in the State.

These three events are the annual Honolulu yacht race, which starts from Newport Harbor the 30th inst. and June 3; the Tournament of Lights, August 18, and the annual international star-boat regatta, August 31 to September 7.

Other Orange County events listed include Vacencia Orange Show, Anaheim, the 24th inst. to June 1; Dahlia Show, Buena Park, date not given; Orange county fair, September 3 to 8.

**BIBLE CLASS ELECTS**

HUNTINGTON PARK, May 13.—The Men's Bible Class of the First Baptist Church has elected J. R. Tweedy, president; A. E. Hampton, vice-president; Frank Gattier, secretary; R. O. Gibbs, treasurer, and Dr. S. C. Holmes, teacher, to serve in these official capacities for the class year.

## THIRTY IN BOYS' BAND AT OXNARD

Juvenile Musicians to Give Summer Concerts in City Plaza

OXNARD, May 13.—In addition to the Ventura county Elatedford and several other projects, Oxnard Community Service has developed a boys' band of outstanding merit.

The band, organized two years ago, now numbers about thirty players, ranging in age from 9 to 15 years.

Under the leadership of Al Smith, conductor, the boys have gradually improved from beginners to a point where they play selections of a different nature with pleasing effect.

The city of Oxnard is proud of the band, has a citizens' committee assisting him. The committee proposes to conduct a series of concerts during the summer months. These concerts will be given in the plaza in order to bring before the public the striking advance made by the boys and to entice the summer months.

The band is supported by various benefits given from time to time. At such performances the boys appear in their white uniforms.

## Veteran Scribe Leaves Post to Visit Old Home

ESCONDIDO, May 13.—After a residence of twenty-seven years in San Diego county, James H. Heath, veteran newspaper man and chamber of commerce worker, will sail from Los Angeles tomorrow on the Panama Pacific liner California for an extended visit to his old home in Maine, where he lived twenty-eight years.

Coming to Escondido in 1908 as correspondent of The Times, Union and Tribune, he has since continued to act in that capacity. His activities with the civic development of the communities of Northern San Diego county date from the launching of the annual grape festival, known as "Orange Day," staged on Admission Day, September 9. For a dozen years he has been secretary of the Escondido Chamber of Commerce. He reorganized the Chamber of Commerce in Ramona, a near-by community, serving as secretary. He assisted in the organization of the Chamber of Commerce of Escondido, and for several years his secretary. Numerous other units of community development received his attention.

Following a short visit in New York and Boston Heath will go to Eastern Maine for a visit with relatives, at Waltham, near Bar Harbor, thence to other parts of the Pine Tree State, including the twin Androscoggin River cities of Lewiston and Auburn, where for fourteen years he did local news reporting for the Lewiston Journal, a portion of the time while the late Harry E. Andrews, former managing editor of the Los Angeles Times, was the managing editor. It was at Waltham, in 1888, where Heath started his newspaper career as the Waltham correspondent of the Boston American, when the late J. C. Chilcott was its publisher.

**MESSANGER BOY HURT**

Motorcycle Struck by Car Driven by Ontario Cement Contractor

PASADENA, May 13.—Corydon Milne, Western Union messenger, incurred injuries which may prove fatal when his motorcycle was cut in two today in a collision with an automobile driven by Olaf Johnson, Ontario cement contractor.

Deputies from the Altadena Sheriff's Substation investigated the accident, which occurred at the intersection of Altadena street and Lincoln avenue. They reported that the messenger boy was riding at a fairly rapid rate of speed when the automobile, rounded the corner, Johnson was questioned by the deputies and released.

The frame of the motorcycle was nearly bisected by the heavy car and Milne was pinned under the wreckage.

Dr. Thomas W. Nisbet of the Pasadena Emergency Hospital stated that the boy's shoulder blade and two ribs were fractured. X-rays will be taken at the Pasadena Hospital, to which Milne was transferred, to determine the extent of probable internal injuries.

**CASTS SHADOW OVER FORCE**

Dark Gris Night Beat and This Makes Lighter

UPLAND, May 13.—Upland police department is due to get dark the 19th inst., and a strong lock will be put on the force. Chief of Police J. F. Sawyer didn't have any special motive in mind today when he announced today that G. O. Dark is to be a night patrolman. Dark's beat includes many dark streets. Dark has been deputy sheriff at Camp Baldy since June, 1923.

Patrolman J. L. Lock has been taken off the night patrol and has been given the key beat of the day patrol. With the addition of Dark to the force the duties of all patrolmen have become lighter.

**TO CHART AIR ROUTE**

Noted Meteorologist to Make Trips for Guggerheims

BALBOA, May 13.—Antar Deraga, meteorologist at the Weather Bureau here and secretary of the Orange county committee on aeronautics, has been requested by the Guggerheims Foundation, near Thousand Oaks, to make a tour of the airway between San Francisco and Los Angeles. Deraga is in charge of the meteorological work on that route.

Deraga is an aviation enthusiast, having been more of the commander of the Guggerheims Foundation for more than two decades. His present work is being undertaken because at least two companies expect to be running day planes between Los Angeles and San Francisco within the near future.

**STUDENTS EXHIBIT RESULT OF TRAINING**

HUNTINGTON BEACH, May 13.—Open house will be held by the students of the home economics department of the Huntington Beach elementary school next Thursday. The ten cooking classes will demonstrate the culinary arts under the supervision of Miss Myrtle A. Hurt, instructor of home economics. Girls of the sixth and seventh grades will serve refreshments and the girls of the eighth grade will act as hostesses wearing the dresses that they have made in the sewing classes.

A group of seventh-grade girls and the eighth-grade boys will demonstrate their cooking skills. The event is to be held between 7:30 o'clock and 9 o'clock in the home economics building of the elementary school.

Among other exhibits will be a model furnished bedroom and a correctly prepared dinner. The adult class will have an exhibit of clothing.

## PROSPECT GOOD FOR GROWERS

Orange Crop to Yield as Much Money as Was Received Last Season

REDLANDS, May 13.—Fifty per cent more money on a 65 per cent crop will put nearly as much money in the orange growers' pockets this year as did the big crop harvested last year, according to estimates completed today by citrus officials.

At present, oranges are a cent and a half per pound higher than last year and Valencia are 2 cents higher than at the same period last season. This will mean

[illegible][illegible][illegible][illegible][illegible][illegible]

A dark, textured vertical strip, possibly a book cover or binding, with a lighter, textured strip running vertically along the right edge. The dark strip has a fine, vertical ribbed texture. The lighter strip on the right has a more irregular, fibrous texture. The overall appearance is that of a close-up of a book's spine or a similar binding material.

Reinforces His Stand,  
and Says Secretary Can  
Win if Nominated

W. ROBERT E. ARMSTRONG  
Staff Correspondent  
WASHINGTON, May 14. (Exclu-  
sive)—That Eastern barrier which  
has attempted to stand in the way  
of Herbert Hoover's nomination for  
president on the Republican ticket  
is to give way today.  
The gap made in it when  
the Treasury Secretary Mellon

...the word that Mr. Butler had not only to vote for Mr. ... of Kansas City, but was ... to make the Massachusetts ... unanimous on the sub- ... just as the news came ... New York that the State ma- ...

**HONESTY FOR HOOVER**  
 J. Edgar J. Morris, the New York  
 chairman, who has been the  
 friend of Charles D. Miller, the  
 chief committeeman, in holding  
 "York back for a possible "draft  
 movement, gave out state-  
 ments during that he had found a  
 city of Republicans for Hoover  
 would be had surveyed.  
 the same time Secretary of the  
 office, his

...the lack of help from  
...in Massachusetts, Hulse in  
...York and Mellon in Pennsyl-  
...the handicapped the Hoover  
...and Saturday when the  
...of the money marts gave  
...resorted to a demand to the

**WHAT MELLON SAID**  
Mellon was brought from all sides for a clear interpretation of his Philadelphia declaration which urged his delegates be unimpaired.  
Mr. Mellon had to say for himself as follows:  
"I do not see why there is any interpretation of my Philadelphia statement. It was pretty plain to me. Anything can happen between now and then."

Mr. M. never can win if he is nominated. I think he would be a good President. The Pennsylvania delegation is a cohesive organization and there never has been a time when the State organization was more harmonious than now."

It was made clear from those who have been in contact with Mr. Mellone that his return from Philadelphia that the Secretary regards the Pennsylvania delegation in the
